PUBLIC ACCOUNTS
OF THE
PROVINCE OF ONTARIO
FOR THE
YEAR ENDED 31ST DECEMBER,
1896.

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO.

TORONTO:
WARWICK BROS & FRUTTER, PRINTERS, &C., &C., 68 AND 70 FRONT ST. WEST.
1897.

To His Honour the Honourable G. A. KIRKPATRICK,

Lieutenant-Governor of Ontario.

MAY IT PLEASE YOUR HONOUR :

The undersigned has the honour to present to your Honour the PUBLIC ACCOUNTS of the Province of Ontario for the year ending 31st December, 1896.

Respectfully submitted,

RICHARD HARCOURT,

Treasurer.

TREASURY DEPARTMENT, ONTARIO.

TORONTO, February 10th, 1897.

PROVINCIAL AUDITOR'S REPORT

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, February 10th, 1897.

To HON. R. HARCOURT,

Treasurer of Ontario :—

I have the honour to present to you the Public Accounts for the year 1896.

For the information of the Legislative Assembly, I beg to submit the following Departmental Reports and Treasury Board Orders, with reference to overdrafts of appropriations under Schedule A of the Supply Bill.

Education—Superannuated Teachers \$1,300 00

EDUCATION DEPARTMENT,

TORONTO, July 11th, 1896.

The undersigned respectfully reports to His Honour the Lieutenant-Governor in Council :—

That the sum appropriated for the sub-service of "Superannuated Teachers" is exhausted, and as it is necessary that the allowances of worn-out teachers should all be paid without delay, the undersigned respectfully recommends that authority be given under the Act 49 Vic., cap. 4, sec. 20, for appropriating a further sum of \$1,300 00 to meet the payment of present schedule of \$883.50, and an approximate estimate of allowances, etc., still due.

The amount asked for above present schedule, to be placed to the credit of the Provincial Treasurer, to meet further payments during the year as required.

(Sd.) G. W. ROSS,
Minister of Education.

PROVINCIAL AUDITOR'S OFFICE,
TORONTO, July 16th, 1896.

SIR,—I beg to enclose herewith for the approval of the Treasury Board, a recommendation from the Education Department, that payments in excess of the appropriation for Superannuated Teachers, to the amount of (\$1,300.00) be authorized.

Cheques for above to be issued by the Treasury Department, on presentation of approved certificates from the Education Department.

Your obedient servant,

C. H. SPROULE,
Provincial Auditor.

THE CLERK,
Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report of the Honorable the Minister of Education, dated the 11th day of July, A.D. 1896, the Treasury Board doth hereby under the provisions of section 20, cap. 21, R.S.O., 1887, authorize the issue of a warrant for the sum of one thousand three hundred dollars (\$1,300) in favor of the Honorable the Treasurer, for the payment of allowances to "Superannuated Teachers," the appropriation for such service

having become exhausted, Eight hundred and eighty-three dollars and fifty cents (\$883.50) to meet the present schedule, and the balance to be placed to the credit of the Treasurer to meet further payments during the year as required.

Certified,

J. L. CAPREOL,

Clerk Treasury Board.

Legislation—Legislative Printing and Binding..... 2,647 07

QUEEN'S PRINTER'S OFFICE,

TORONTO, September, 4th, 1896.

The undersigned respectfully reports to His Honour, the Lieutenant-Governor in Council :

That the appropriation for Legislative Printing and Binding has been exhausted. That this is due to the large amount of printing necessary in connection with the legislation of last session. The amount now asked for is the last of the amount due in connection with last session.

The undersigned therefore requests that authority be given the Honourable the Provincial Treasurer, under the Act R.S.O., 1887, cap. 21, sec. 20, to pay the accompanying certificate, viz., \$2,647.07.

Your obedient servant,

L. K. CAMERON,

Queen's Printer.

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, September 5th, 1896.

SIR,—I beg to enclose herewith for approval of the Treasury Board, a recommendation from the Queen's Printer for payment under authority of 49, Vic., cap. 21, sec. 20, of the sum of \$2,647.07 to Messrs. Warwick Bros. & Rutter, on account of contract for Legislative Printing and Binding.

Your obedient servant,

C. H. SPROULE,

Provincial Auditor.

THE CLERK,
Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report from the Queen's Printer, dated the 5th day of September, A D. 1896, the Treasury Board doth hereby under the provisions of section 20, cap. 21, R.S.O., 1887, recommend that a warrant for the sum of two thousand six hundred and forty-seven dollars and seven cents (\$2,647.07) be issued in favor of Warwick Bros. & Rutter, on account of work performed under their contract for Legislative Printing and Binding, the appropriation for said service having become exhausted.

Certified,

J. L. CAPREOL,

Clerk Treasury Board.

Legislation—Legislative Printing and Binding..... 2 939 70

QUEEN'S PRINTER'S OFFICE,

TORONTO, September 22nd, 1896.

The undersigned respectfully reports to His Honour, the Lieutenant-Governor in Council :

That the appropriation for Legislative Printing and Binding has become exhausted. That this is due to the large amount of work done in connection with the legislation of last session. That this amount now asked for closes up the amount due for paper in connection with last session.

The undersigned therefore requests that authority be given the Honourable the Provincial Treasurer, under the Act R.S.O., 1887, cap. 21, sec. 20, to pay the accompanying certificate, viz, \$2,939.70, to Messrs. W. Barber Bros.

Your obedient servant,

L. K. CAMERON,

Queen's Printer.

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, September 25th, 1896.

SIR,—I beg to enclose herewith for approval of the Treasury Board, a recommendation from the Queen's Printer in favour of Messrs. W. Barber & Bros., for the sum of \$2,939.70, on account of paper supplied for Legislative Printing.

Your obedient servant,

C. H. SPROULE,

Provincial Auditor.

THE CLERK,

Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report from the Queen's Printer, dated the 22nd day of September, A.D. 1896, the Treasury Board doth hereby under the provisions of section 20, chapter 21, R.S.O., 1887, authorize the issue of a warrant for the sum of two thousand nine hundred and thirty-nine dollars and seventy cents (\$2,939 70) in favor of Messrs. W. Barber & Bros. for paper furnished under their contract, the appropriation for Legislative Printing, and Binding to which this sum is chargeable, having become exhausted.

Certified,

J. L. CAPREOL,
Clerk Treasury Board.

Education—Departmental Examinations 3,500 00

EDUCATION DEPARTMENT,

October 12th, 1896.

The undersigned respectfully reports to His Honour the Lieutenant-Governor in Council:

That the sum appropriated for the sub-service of "Departmental Examinations" is insufficient for the current year, and that after providing for the payment of salaries to end of the year, necessary printing, etc., a further amount of \$3,500 is required for this sub-service.

The undersigned therefore recommends that authority be given under the Act 49 Vic., chapter 4, section 20, for appropriating a further sum of \$3,500 to be placed to the credit of the Honourable the Provincial Treasurer to meet the deficiency.

(Signed)

G. W. ROSS,
Minister of Education.

PROVINCIAL AUDITOR'S OFFICE.

TORONTO, October 15th, 1896.

Sir,—I beg to enclose herewith for the approval of the Treasury Board, a recommendation from the Education Department for payment of accounts, amounting to \$3,500 in excess of the appropriation for Departmental Examinations.

Duly certified vouchers in connection with above recommendation, amounting to \$3,457.94, are also enclosed, leaving a balance of \$42.06 to meet accounts for printing, etc., referred to in Minister's report.

Your obedient servant,

C. H. SPROULE,

Provincial Auditor.

THE CLERK,
Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report of the Honourable the Minister of Education, dated the 12th day of October, A.D. 1896, the Treasury Board doth hereby pursuant to the provisions of section 20, chapter 21, R.S.O., 1887, direct that the sum of three thousand five hundred dollars (\$3,500) be placed to the credit of the Honourable the Treasurer to meet certain payments chargeable to the appropriation for the sub-service, "Departmental Examinations," which has become exhausted.

Certified,

J. L. CAPREOL,

Clerk, Treasury Board.

Legislation—Salaries	2 116 00
do —Library	540 02

TREASURY DEPARTMENT,

November 12th, 1896.

The undersigned has the honour to report that owing to the expenditure for Legislative Printing and Binding exceeding the estimate, the appropriation for legislation has become exhausted.

The undersigned further reports that while the expenditure for "Legislative Library" and for "Official Salaries" is still within the estimates for these sub-services, yet as the appropriation for legislation covering them is exhausted, it is desirable to make provision under section 20, chapter 4, 49 Victoria, for the following necessary payments, viz :

Official Salaries—

Pay list, November	\$1,055 00
do December	1,061 00

Legislative Library—

Approved accounts for books supplied as per Librarian's list attached.....	540 02
Total.....	\$2,656 02

The undersigned therefore respectfully recommends that authority be given under the provisions of 49 Victoria, chapter 4, section 20, to make the above mentioned payments.

(Signed)

R. HARCOURT,

Treasurer.

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, November 12th, 1896.

Sir,—I beg to enclose herewith an application from the Honourable the Provincial Treasurer, for authority under 49 Victoria, chapter 4, section 20, to make payments on account of "Legislation," amounting to two thousand six hundred and fifty-six dollars and two cents (\$2,656.02).

Your obedient servant,

C. H. SPROULE,

Provincial Auditor.

THE CLERK,

Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report of the Honourable the Treasurer, dated the 12th day of November, A.D. 1896, the Treasury Board doth hereby, pursuant to the provisions of section 20, cap. 21, R. S. O., 1887, authorize the issue of a warrant for the sum of two thousand six hundred and fifty-six dollars and two cents (\$2,656.02) in favor of the Honourable the Treasurer, to enable him to make the following payments, chargeable to the appropriation for "Legislation," which has become exhausted, namely :

Official salaries :

Pay list, November	\$1,055 00
" December	1,061 00

Legislative library :

Approved accounts for books supplied per librarian's list	540 02

J. L. CAPREOL,

Clerk Treasury Board.

Public Buildings—Eastern Dairy School.....	317 31
--	--------

DEPARTMENT OF AGRICULTURE,

TORONTO, November 6th, 1896.

The undersigned respectfully reports to His Honour the Lieutenant-Governor in Council :

That the sum appropriated for the equipment of the Dairy School at Kingston is exhausted, and that a balance of \$317.31 on account of carpenter work due, to M. Sullivan, remains unpaid.

The undersigned therefore recommends that authority be given to the Honourable the Provincial Treasurer under the Act, 49 Vic, cap. 4, sec. 20, for the payment of said account of \$317.31, herewith attached.

(Sd.) JOHN DRYDEN,
Minister of Agriculture.

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, November 25th, 1896.

SIR,—I beg to enclose for approval of the Treasury Board, a recommendation from the Minister of Agriculture, for payment of an account amounting to \$317.31, *re* equipment Dairy School, Kingston.

Your obedient servant,

C. H. SPROULE,
Provincial Auditor.

THE CLERK,
Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report of the Honourable the Minister of Agriculture, dated the 6th day of November, 1896, the Treasury Board doth hereby, by virtue of section 20, cap. 21, R. S. O., 1887, authorize the issue of a warrant for the sum of three hundred and seventeen dollars and thirty one cents, in favor of the Honourable the Treasurer, for the payment of the account of M. Sullivan for carpenter's work in connection with the equipment of the Dairy School at Kingston, the appropriation for said service having become exhausted.

Certified,

J. L. CAPREOL,

Clerk Treasury Board.

Public Institutions Maintenance—Brockville Asylum	2535 90
---	---------

PUBLIC INSTITUTIONS OFFICE,

TORONTO, November 24th, 1896.

SIR,—I beg to report that the remaining balance of the "Maintenance" appropriation at Brockville Asylum is insufficient to pay the accounts for the current month, amounting to \$3,404.42, and that an additional sum of \$2,535.90 will be required for that purpose.

The expenditure for the service has been limited to requirements found necessary to preserve the efficiency of the institution. Its comparatively recent establishment, together with unforeseen requirements in providing for an increased population, as well as an increased outlay for staple supplies, have caused this over-expenditure.

I would therefore recommend the issue of a Treasury Board warrant, under R. S. O., 1887, cap. 21, sec. 20, for the above sum of \$2,535.90.

I have the honour to be, Sir,

Your obedient servant,

R. CHRISTIE,

Inspector.

C. H. SPROULE, Esq.,
Provincial Auditor.

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, November 25th, 1896.

SIR,—I beg to enclose for approval of the Treasury Board a recommendation from Mr. Inspector Christie for payment of accounts in excess of the appropriation for maintenance of the Brockville Asylum, amounting to \$2,535.90.

Your obedient servant,

C. H. SPROULE,

Provincial Auditor.

THE CLERK,

Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report of R. Christie, Esquire, Inspector of Prisons and Public Charities, dated the 24th day of November, A.D. 1896, the Treasury Board doth hereby by virtue of section 20, cap. 21, R. S. O.

1887, authorize the issue of a warrant for the sum of two thousand five hundred and thirty-five dollars and ninety cents (\$2,535 90) in favor of the Honourable the Treasurer, for the payment of certain accounts in connection with the maintenance of the Asylum for the Insane, Brockville, the appropriation for said service having become exhausted.

Certified,

J. L. CAPREOL,

Clerk Treasury Board.

Legislation—Stationery, Printing and Binding 3,000 00

QUEEN'S PRINTER'S OFFICE,

TORONTO, November 25th, 1896.

The undersigned respectfully reports to His Honour the Lieutenant-Governor in Council :

That the appropriation for Legislative Printing and Binding has become exhausted.

That the vouchers passed for printing up to the end of last month, show that over \$3,000 is due the contractors for legislative printing and binding.

The undersigned therefore respectfully requests that authority be given the Honourable the Provincial Treasurer, under the Act R. S. O. 1887, cap. 21, sec. 20, to pay the accompanying certificate, viz: \$3,000.

Your obedient servant,

(Sd.) L. K. CAMERON,

Queen's Printer.

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, November 27th, 1896.

SIR,—I beg to enclose herewith for approval of the Treasury Board, a second recommendation from the Queen's Printer, asking for payment of \$3,000, to the contractors for Legislative Printing and Binding on account of work done.

Your obedient servant,

C. H. SPROULE,

Provincial Auditor.

THE CLERK,

Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report of L. K. Cameron, Esquire, Queen's Printer, dated the 25th day of November, A.D. 1896, the Treasury Board doth hereby by virtue of section 20, cap. 21, R. S. O. 1887, authorize the issue of a warrant for the sum of (\$3,000) three thousand dollars in favor of Messrs. Warwick Bros. & Rutter, contractors for Legislative Printing and Binding, the appropriation for said service having become exhausted.

Certified,

J. L. CAPREOL,

Clerk Treasury Board.

Education—Departmental Examinations 2,000 00

EDUCATION DEPARTMENT,

TORONTO, December 5th, 1896.

The undersigned respectfully reports to His Honour the Lieutenant-Governor in Council :

That the sum appropriated for the sub-service of " Departmental Examinations " is exhausted, as well as the additional amount of \$3,500 requested by order on Treasury Board on 12th October last, excepting a small balance of \$71.22.

As the services of the Appeal examiners, revising and reporting committee, an account of the Queen's Printer, and a few other bills remain unpaid, the undersigned respectfully recommends that authority be given under the Act, 49 Vic., cap. 4, sec. 20, for appropriating a further sum of \$2,000, to be placed to the credit of the Honourable Provincial Treasurer to meet the payment of present schedule and other expenses per memo. attached.

(Sd.) G. W. ROSS,

Minister of Education.

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, December 12th, 1896.

DEAR SIR,—I beg to enclose herewith for approval of the Treasury Board a second application from the Education Department, for the pay-

ment of accounts in excess of the appropriation for Departmental Examinations, as follows :

Sundry persons—Services and expenses—See Education Department certificates 958, 959, 960, 961 and 979		\$1,239 75
Queen's Printer—Paper supplied		503 10
Warwick Brcs. & Rutter—Printing, etc.....		31 15
Official Pay List—December		226 00
Total		\$2,000 00

Your obedient servant,

C. H. SPROULE,
Provincial Auditor.

THE CLERK,
Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of the report of the Honourable the Minister of Education, dated the 5th day of December, A.D. 1896, the Treasury Board doth hereby, pursuant to the provisions of Section 20, Cap. 21, R. S. O. 1887, direct that the further sum of two thousand dollars (\$2,000) be placed to the credit of the Honourable the Treasurer, to meet certain payments chargeable to the appropriation for the sub-service "Departmental Examinations," which has become exhausted.

Certified,

J. L. CAPREOL,
Clerk Treasury Board.

Public Buildings—Kingston Asylum	438 00
--	--------

DEPARTMENT OF PUBLIC WORKS,

TORONTO, December 14th, 1896.

The undersigned begs to report to His Honour the Lieutenant-Governor in Council :

That the capital account appropriation for the Kingston Asylum is exhausted and a balance of \$438 is due to and unpaid Mr. W. Garson on his contract progress certificate No. 29, for the construction of the east wing addition to said Asylum Buildings.

Certificate Number 29.....	\$738 00
----------------------------	----------

Treasury issued cheque in payment on account.....	300 00
---	--------

Balance due.	\$438 00
-------------------	----------

The undersigned therefore respectfully recommends that authority be given under the Act, R. S. O. 1887, Cap. 21, Sec. 20, for the issue of a warrant in favor of Mr. W. Garson for the said balance due him.

(Sd.) A. S. HARDY,
Acting Commissioner.

PROVINCIAL AUDITOR'S OFFICE,

TORONTO, December 18th, 1896.

SIR,—I beg to forward for approval of the Treasury Board a recommendation from the Department of Public Works, for payment of the sum of four hundred and thirty-eight dollars (\$438.00) on account of work done on contract at the Kingston Asylum.

Your obedient servant,

C. H. SPROULE,
Provincial Auditor.

THE CLERK,
Treasury Board.

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of a report of the Honourable Mr. Hardy, Acting Commissioner of Public Works, dated the 18th day of December, A.D. 1896, the Treasury Board doth hereby, pursuant to the provisions of Section 20, Cap. 21, R. S. O. 1887, authorize the issue of a warrant for the sum of four hundred and thirty-eight dollars (\$438.00) in favor of Mr. W. Garson, being the balance due him on his contract progress certificate, No. 29, for the construction of the east wing addition to the Asylum for the Insane, Kingston, the appropriation on capital account for said institution having become exhausted.

Certified,

MINUTE OF THE TREASURY BOARD ON MATTERS REFERRED TO THEM FOR
CONSIDERATION.

Upon consideration of the report of the Honourable Mr. Hardy, Acting Commissioner of Public Works, dated the 9th day of January, A.D. 1897, the Treasury Board doth hereby, pursuant to the provisions of section 20, cap. 21, R.S.O., 1887, authorize the issue of a warrant for the sum of seventy-six dollars (\$76.00) in favor of W. Clarke for work on Mattawa Lock-up, the appropriation of the District of Nipissing (capital account) having become exhausted.

Certified,

J. L. CAPREOL,

Clerk Treasury Board.

SPECIAL WARRANT ISSUED UNDER AUTHORITY OF 49

VICT., CAP. 4, SEC. 20.

Copy of an Order-in-Council approved by His Honour the Lieutenant-Governor, the 23rd day of January, A.D. 1896.

The Committee of Council have had under consideration the reports of the Honourable the Attorney-General, the Honourable the Commissioner of Crown Lands, the Honourable the Minister of Education, the Honourable the Provincial Secretary, the Honourable the Minister of Agriculture, and the Honourable the Commissioner of Public Works, dated respectively 22nd January, 1896; also the report of the Honourable the Treasurer of the same date, wherein he states that the sum of \$80,000 appropriated by the Supply Bill of last Session, assented to on the 16th day of April, 1895, to defray the expenses of "Legislation," "Public Institutions Maintenance," and for salaries of the Officers of the Government and Civil Service for the month of January, 1896, has become exhausted, and as the Legislative Assembly has not been called for the despatch of business until the 11th day of February next, some time will elapse before a vote of credit can be obtained, and, in the meantime, it is necessary and urgent that further provision should be made for the above mentioned services to the following extent, namely:—

Civil Government	\$50,000
Legislation	25,000
Public Institutions Maintenance	75,000

The Treasurer further states that in accordance with the provisions of the said Supply Bill all balances remaining unexpended after the 20th day of January instant lapsed, and have been written off, and it is urgently and immediately necessary that provision should be made to defray expenses in connection with the below mentioned services as follows, namely :—

Administration of Justice	\$25,000
Education	25,000
Agriculture	10,000
Crown Lands Dept. Expenditures	20,000
Public Works and Buildings	10,000
Miscellaneous Expenditures	10,000

The Treasurer recommends that in pursuance of subsection 2 of Section 9 of Cap. 21, R. S. O. 1887, a special warrant for the sum of two hundred and fifty thousand dollars (\$250,000) be issued by Your Honour, to be placed by the Treasurer to a special account against which cheques may be issued from time to time, as may be required for the payment of accounts in connection with the services above specified.

The Committee concur in the recommendation of the Honourable the Treasurer and advise that the same be acted upon.

Certified,

J. LONSDALE OAPREOL,

Asst. Clerk Executive Council.

Respectfully submitted,

C. H. SPROULE,

Provincial Auditor.

	NOTE.—By R. S. O. c 116, s. 136 (3), the salaries of the Local Masters of Titles are to be “fixed from time to time with reference to the amount or probable amount of the business.” Accordingly, the amount each year is fixed with reference to the business of the preceding year, and to the fees collected by them. All fees are payable into the Consolidated Revenue Fund. These fees aid in fixing the value of the work done at the request of private parties after registration of patents. The registration of patent is made at the request of the Government, free of charge to the patentees, unless where they have encumbered their land. The patents thus registered during 1896 were, at Sault Ste. Marie, 59; Parry Sound, 73; Bracebridge, 73; Port Arthur 20; North Bay, 70; Rat Portage, 281. The fees collected from the parties in 1896 were. Sault Ste. Marie, \$904.15; Parry Sound, \$425.20; Bracebridge, \$193.70; Port Arthur, \$102.70; North Bay, \$258.60; Rat Portage, \$898.17.

Addington Road—Repairs between Cloyne and Denbigh, about 40 miles.....	400 00	
Baxter Bridges—To renew.....	400 00	
Burnt River Bridge, Somerville (estimated cost).....	600 00	
Cameron Road—To construct between Con. B. Cameron and Pembroke and Mattawa Road.....	300 00	
Dummer and Stony Lake Road, to open from lot 30, con. 11, Dummer, about Stony Lake.....	500 00	
Eldon 1 and 2 Con. Road, to open swamp across lots 19 and 20.....	400 00	
Eganville and Foy Road—To repairs towards Combermere.....	300 00	
Island Road—Repairs in Stanhope.....	300 00	
Kennebec Road—Repairs.....	500 00	
Lees Road—To open from Webbwood south.....	400 00	
Miller's Bridge—Contribution towards, balance contributed by settlers.....	300 00	
Magnetawan River Bridge, on Muskoka Road—To renew, municipalities to furnish any further amount necessary.....	600 00	
North West Road—To renew bridges over Shawanaga and Naiscoodyong rivers, and repair road.....	1,200 00	
Papineau, 8th and 9th con. Road—To improve portions chopped out by settlers.....	500 00	
Rama Bridges—Contribution towards renewal of, subject to inspection and approval.....	1,000 00	
St. Joseph Island Roads.....	600 00	
South Shore Road—To open about south shore of Trout Lake.....	500 00	
Shield's Pit Road—To complete in Township of Calvin.....	400 00	
Shamrock and Dennehan Road—Repairs.....	300 00	
Stisted, 12 and 13 con. Road -To open about 1 mile.....	350 00	
South Algona, 5th con. Road—To open from East side of lot 12 to west side of lot 15.....	300 00	
Sudbury and Massey Bay Road—to extend.....	500 00	
Widdifield Road—to repair and bridge Duchesney creek.....	400 00	
Wilberforce 16th Con. Road—to open and improve.....	300 00	
		11,600 00

REPORT
OF THE
COMMISSIONER OF CROWN LANDS
OF THE
PROVINCE OF ONTARIO
FOR THE YEAR 1896.

*To His Honor the Honorable GEORGE AIREY KIRKPATRICK,
Lieutenant-Governor of the Province of Ontario.*

MAY IT PLEASE YOUR HONOR :

As required by law, I submit for the information of your Honor and the Legislative Assembly, a report of the management of the Crown Lands of the Province for the year ending 31st December, 1896.

CROWN LANDS.

The area of Crown Lands sold during the year was 49,471 acres, aggregating in value \$45,077.27. The collections on account of these and sales of former years amounted to \$44,303.26. There was also leased as mining lands under the leasing clauses of the Mines Act 13, 223 1-2 acres, on which, and on lands previously leased, rent amounting to \$46,940.09 was collected. The total collections therefore on account of Crown Lands were \$91,243.35. (See Appendix No. 3, page 5.)

The two new settlements at Temiscamingue and Dryden have made satisfactory progress during the year and considerable areas of land have been sold to actual settlers at both these places.

The mining industry of the Province is moving steadily forward, and there are signs that we are now on the eve of an era of great activity. During the past year twenty-nine mining companies were incorporated under the Ontario Letters Patent Act, while during the previous four years only twenty-four such companies were chartered.

The chief interest is being taken in gold mining, and the gold-bearing area of the Province is now shown to be very large. Numerous properties are in course of being prospected, with in most cases very satisfactory showing, but necessarily the opening of mines and milling of ores do not show as rapid advance as in industries which require less skill and capital for their development. Until the fall of 1895 only one mill of ten stamps was treating gold ores in the Province. Since then two mills of ten stamps have been working regularly, and four others with an aggregate of forty-five stamps at intervals, on ores of mines in process of development. A mill of twenty stamps is just about completed on the Seine river, and another in Hastings County for treating the refractory gold ores of that district by a new process will have a capacity of 75 tons per day. In 1893 the bullion production of the Province was 1,695 oz., valued at \$32,960; in 1894 it was 2,022 cz., valued at \$32,776; in 1895 it was 3,030 oz., valued at \$50,281, and in the year just closed it was 7,154 cz., valued at \$121,848.

Considerable iron ore was raised in the County of Hastings during 1896 for smelting at the blast furnace at Hamilton, which began to make pig iron at the beginning of the year. The Canadian Copper Company continued to be the chief producer of nickel and copper from its mines at and near Copper Cliff, in the Sudbury region, and its operations were carried on upon their usually large scale. The demand for mining lands, particularly those supposed to contain gold, has been very active during the last three months of the year, and as most of the applications were for unsurveyed lands, necessitating surveys, the filing of plans and the laying down of the applications on the office maps, the work of the surveys branch of the Department has been very much congested.

CLERGY LANDS.

The area of these lands sold during the year was 1,289 acres, aggregating in value \$1,329.50. The amount collected on account of these and former sales was \$4,201.57. (See Appendix No. 3, page 5.)

COMMON SCHOOL LANDS.

The area of these lands sold during the year was 5 3-10 acres, aggregating in value \$78. The collections on account of these and former sales amounted to \$12,814.67. (See Appendix No. 3, page 5.)

GRAMMAR SCHOOL LANDS.

The area of these lands sold during the year was 200 acres, aggregating in value \$205. The collections on account of these and former sales amounted to \$2,004.23. (See Appendix No. 3, page 5.)

RAILWAY LANDS.

Under Railway Aid Act of 1889, 52 Vict. c. 35, 792 $\frac{1}{2}$ acres were sold, aggregating in value \$806 70. The collections were \$766.70. (See Appendix No. 3 page 5)

COLLECTIONS AND REVENUE.

The total collections of the Department on account of all sources of revenue were \$925,262.93. (See Appendix No. 4, page 6.)

DISBURSEMENTS.

The total disbursements of the Department on account of ordinary services and expenditure were \$253,511.92. (See Appendix No. 6, page 8). In addition to this there were special votes for the running of the diamond drill, colonization pamphlets, Pigeon river slide and dam and colonization house at Lake Temiscamingue, amounting to \$3,429.87 (See Appendix No. 7, page 20.)

WOODS AND FORESTS.

The total revenue from Woods and Forests for the year 1896 amounted to \$812,421.78. Of this \$45,520 was on account of bonuses and \$54,457.91 on account of ground rent, leaving the net revenue from timber dues, etc., to be \$712,443.87. (See Appendix No. 8, page 21.)

The lumber trade has now been in a more or less depressed condition for a period of four years. The year 1892 was a very prosperous one, trade being active and prices remunerative, but early in 1893 serious financial stringency set in in the United States, money became scarce and credit was shaken. Under this state of affairs Canadian lumbermen prepared themselves to hold their logs and lumber, preferring to carry them rather than to part with their property on doubtful security. Fortunately their credit enabled them to do this, and thus, although sales fell off considerably, there was no break in prices. Towards the end of 1893 a slight reaction took place and it seemed as though confidence were returning and that 1894 would see the end of the depression. This expectation however was not realized, for in 1894 instead of growing better the position became aggravated, building operations fell off largely in the United States and Canada, with a consequent decrease in the demand for lumber, although the position so far as Canadian mill owners were concerned was relieved to some extent by the abrogation of the duty on Canadian lumber passing into the United States. During 1895 the depression deepened and enormous stocks accumulated in the hands of the makers and wholesale dealers, more particularly of the coarser grades of lumber, and towards the end of the year a sharp break in prices took place.

(The year 1896 opened without much hope of improvement in the sawn lumber trade, being election year in the United States during which there always prevails an unsettled state of business. The situation was still further unfavorably affected by the money question, in which bimetalism versus gold standard was thrown into the already seething caldron of presidential politics. It will therefore be understood how with failing demand, financial stringency, overstocked markets and "financial heresy" rampant, not only the lumber trade but all other industries and trades in the United States were demoralized, and as our principal market for sawn lumber is found in that country, the state of affairs prevailing there seriously affected us. There was a general expectation that as soon as the Presidential election was over, should the Republicans obtain power, a marked

improvement in the lumber trade, as well as in business generally, would set in, and preparations were made to take advantage of the good times by taking out large stocks of logs, the output of Ontario last winter (1895-96) being the largest in the history of the Province. The expected change however did not come about, for notwithstanding the success of the Republican party and the nation's declaration in favor of "sound money," the lumber trade, and indeed all other trades, have remained in a depressed condition, and the position has been further complicated by an agitation which has recently sprung up in favor of the re-imposition of a duty on Canadian lumber passing into the United States, and until this agitation has culminated in one way or the other the state of affairs must remain unsettled.

The bright side of the lumber business, so far as Canada is concerned, is the steady growth of the demand from England and other European markets for our timber and deals. Each year shows an improvement in this demand, and it may be confidently predicted that should a duty be imposed upon Canadian lumber going into the United States our lumbermen will in a short time be able to adapt themselves to the situation by finding other markets equally profitable. The square timber trade is in a healthy condition and a larger quantity of square and waney timber will be taken out this winter than has been the case for some years. Those engaged in sawlogging operations have endeavoured to relieve the situation by reducing their output, and from present appearances there will be a smaller quantity of logs taken out this winter than for some years.

It is expected that two, if not three, large mills will be erected during the coming summer by parties who have previously exported their logs to be sawn in Michigan.

FIRE RANGING.

The gross expenditure on account of this service by licensees and the Department was \$47,719.90. of this amount \$16,323 was composed of balances from the year 1895 the accounts for which were not received in time to be checked and paid in that year. The expenditure on account of 1896 was \$31,396.90. Of this amount \$1,969.90 was on account of fire ranging on the lands of the Crown, leaving the expenditure on licensed lands to be \$30,429. The net expenditure of the Department on account of balances of 1895, proportion on Crown lands and its share of the 1896 ranging amounted to \$23,674.78.

The number of license holders having rangers employed was 60 and they had 160 rangers on duty.

There have been very few serious fires where the fire ranging system has been in organized operation. On licensed lands, which are supervised carefully, while there has been a considerable number of fires, none of them attained any serious proportions owing to there being men on the spot ready and organized to suppress them. The licensees all report favorably as to the benefits which they derive from the system, and are anxious for its continuance and extension. The expenditure on account of the service is considerably larger than usual, but a large proportion is, as already stated, for accounts which properly belonged to the season of 1895 but were not received in time to be paid in that year. During the year three serious fires occurred on Crown lands, one

viii.

in the vicinity of Lake Wahnapiatae, where three or four million feet were reported damaged, and two in the neighborhood of Biscotasing on the main line of the O. P. R. The quantity damaged at Wahnapiatae was not large, and it was disposed of by tender to the highest bidder, so that the timber might be taken out this winter and not go to waste. The two fires at Biscotasing were more serious in their character. One occurred in the month of May and the other later on, in the month of August. A large quantity of timber was badly damaged by these two fires, which was estimated in the first place at sixty-one million feet, but later reports would seem to indicate that the quantity damaged is very much less than was supposed. Tenders were invited for the timber that was so badly damaged as to require its being cut this year, and the timber is now in process of being cut. That portion of it which was burnt early in the season in the month of May is found to be very seriously damaged by the grubs. So many opinions prevailed as to the cause of these fires that it was deemed expedient to issue a Royal Commission to enquire into the matter, which held sittings and took evidence in the region where the fires occurred.

It has become evident that if the Crown domain is to be protected from forest fires some organized system of fire ranging will have to be put in force on the unlicensed territory similar to that which is in operation on the licensed lands. Owing to the excitement which now prevails in connection with gold mining and to the wide area over which the precious metal has been found to exist there will scarcely be a corner of the newer parts of the Province in which the explorer will not be plying his vocation during the coming summer. Explorers, like others, are good or bad, careful or careless, and as they continually use fire for cooking, keeping off flies, lighting their pipes, etc., the danger to the forest areas will be considerably increased. Every precaution possible has been taken to keep explorers out of the pine areas. Notices have been posted in the Rainy River District warning them not to survey or attempt to take up as mining lands areas which are covered with pine timber, and the surveyors have been instructed not to survey in pine areas. But notwithstanding all this it is found that explorers pay little attention to these regulations and notices, where they have reason to believe there is a prospect of finding gold. Nothing short of an active surveillance of the pine areas by a staff of fire rangers will have any deterring effect in preventing explorers entering upon pine lands in the prosecution of their search for gold. There is a large area of pine territory in an exposed position in the Rainy River District which ought to be carefully guarded during the coming summer, and in the territory north and east of Wahnapiatae, there is understood to be an immense body of pine timber which ought to have some supervision with the object of preventing its being damaged by fire.

FISHERIES.

One additional overseer has been appointed since my last report. The reports received from the various overseers show that the law respecting fisheries is fairly well observed. The revenue from permits, etc., was \$504.00. A list of the overseers, with their post-office addresses, etc., is given in Appendix No. 11, page 28.

FREE GRANTS.

There are 161 townships open for location under the Free Grants and Homesteads Act, two townships, Carpenter and Dobie, in the District of Rainy River, having been added since my last report. During last year 725 locations were made on 95,476 acres of land, and 50 locatees purchased 1,781 acres; 271 patents were issued to locatees. (See Appendix No. 10, page 24.)

CROWN SURVEYS.

The following surveys of townships have been carried out this year :

In the District of Muskoka, the residue of the township of Freeman has been subdivided into lots of 100 acres each; in the District of Nipissing the township of Airy has been subdivided into lots of 100 acres each; and the townships of Macpherson, Falconer and Martland into lots of 320 acres each. In the district of Algoma the townships of Harrow, Ourtis, and parts of Tupper and Archibald has been subdivided into lots of 320 acres each; in the district of Rainy River the townships of Eton and Rugby, near Wabigoon on the line of the Canadian Pacific railway, have been subdivided into lots of 320 acres each; the meridian line between the districts of Nipissing and Algoma has been run north from the intersection of O. L. S. Proudfoot's base line with said district line, a distance of 102 miles. In the district of Rainy River the survey along the line of the Canadian Pacific railway, whereby a system of base lines has been laid down for future reference, which has been prosecuted for several years, has been continued.

A small town plot has been laid out near Wabigoon called Dryden. The town plot of Hilton on St. Joseph's Island has been reposted, and several minor surveys have been performed during the year.

The returns of the above named surveys have been received in the office, examined, and closed. The particulars of the surveys will be found in Appendices Nos. 16 and 17, pages 33 and 34.

MUNICIPAL SURVEYS.

The Department has during the year, on the petitions of the municipal council of the township of Ekfrid, issued instructions for survey of the road allowance between the second range north of Longwoods road and the first Concession of Ekfrid, across lot No. 1; and during the year municipal surveys in the township of St. Vincent and in the township of Vespra have been confirmed.

The particulars relating to these surveys will be found in Appendices Nos. 14 and 15, pages 31 and 32.

MINING AND OTHER SURVEYS.

The Mines Act, 1892, requires that applicants to purchase or lease mining lands in unsurveyed territory shall file surveyor's plans, field notes and descriptions by metes and bounds, of their locations, in this Department before any sale or lease is carried out.

Under Orders in-Council of dates January 23rd, 1892, December 3rd, 1892, and September 22nd, 1893, applicants to purchase islands or locations in the districts of Thunder Bay or Rainy River for agricultural purposes in unsurveyed territory are required to file surveyor's plans, field notes and descriptions, by metes and bounds, together with the necessary affidavits, of their locations, which are required to be of the form and size, wherever practicable, prescribed by the Mines Act, 1892.

Under these regulations a number of applicants in the districts of Algoma, Thunder Bay and Rainy River have filed plans, etc., and an area of 9,701 acres has been sold and patented to them, for which \$19,307.05 has been received; and an area of 12,795 acres has been leased at \$1 per acre for the first year's rental.

COLONIZATION ROADS.

The work done during the year was as follows: Miles of new road constructed, 190; miles of road repaired, 558½; bridges erected, 28, and many others repaired. The work done was carefully inspected and reported to be of a satisfactory and substantial character.

The net expenditure was \$102,719.24, the details of which are given in the Superintendent's Report, Appendix No. 27, page 51.

Respectfully submitted,

J. M. GIBSON,

Commissioner.

DEPARTMENT OF CROWN LANDS,

TORONTO, December 31st, 1896.

(Appendix No. 18.)

RESIDUE OF THE TOWNSHIP OF FREEMAN.

DISTRICT OF PARRY SOUND.

PARRY SOUND,

December 2nd, 1896.

SIR,—I have the honor to report that I have surveyed concessions seven, eight, nine and ten of the township of Freeman under your instructions dated 18th June, 1896.

I commenced the survey after observing Polaris on July 23rd, 11 h. 13 m. p. m. (azimuth $1^{\circ}46'$) at the front of concession VII., and at side road 25 and 26, which point I had established on my survey of last summer, and ran N. $20^{\circ}51'40''$ W. to the line between concessions VIII. and IX. which I ran N. $69^{\circ}8'20''$ E., connecting with my work of last season at side road 15 and 16, and continued same line westward under repeated observations of Polaris, and ran the several side roads north and south of said line as I continued the work westward.

I produced the north boundary of the township across Moose bay and continued it in the same line westward, and planted posts for the several lots as shown on traverse sheet, which I thought would be preferable to scaling around the shore and planted post there.

There is but a small percentage of this season's survey fit for agricultural purposes, and the greater part of that is along concession line VIII and IX and between Moon river and Moose bay.

The lumber company operating in the township has a waggon road which starts at Foot's bay on Lake Joseph, and passes through the township to navigable water below the high falls on Moon river. Perhaps it would be more properly called Moon river inlet, from where the north boundary crosses to within about $\frac{1}{2}$ a mile of the high falls, as there is little or no current at the boundary excepting in high water, although the water is dark colored.

The timber on the north and east side of Moon river is principally pine and hardwood, and on the south and west side hardwood, pine and hemlock, where it has not been burnt, but the greater portion has been burnt over many years ago as is shown on timber plan accompanying the field notes.

The only white settler in this portion of the township is on lot 35, concession IX, on the north side of Moon river. There are a number of Indian families composing a small village on lots 54 and 55, concession VII, and on the shore of the Georgian Bay, all of whom wished me to have their names entered for certain lots on the most of which some improvements have been made. I have therefore made return as requested.

I have the honor to be, sir,

Your obedient servant,

(Sgd.) DAVID BEATTY,

Ontario Land Surveyor.

To Honorable J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 19.)

TOWNSHIP OF MARTLAND.

DISTRICT OF NIPISSING.

GLENCOE, ONTARIO,

December 23rd, 1896.

SIR,—In accordance with instructions dated the eighteenth day of June, A.D. 1896, we have surveyed the township of Martland, in the district of Nipissing and Province of Ontario, into lots of three hundred and twenty 320) acres each.

The township was reached by railroad to North Bay, thence by steamer across Lake Nipissing to the head of the Chaudiere Falls at the outlet of the waters of Lake Nipissing or the head of the French river. After a portage of about one-third of a mile here, we proceeded by canoe down the French river for a distance of about twelve miles to the outlet of the Wolseley river, by which latter river we entered the township after a further paddle of about five miles and made our first camping place about the line between lots one and two in the second concession.

Here we took an observation for meridian on the night of the 17th of July, A.D. 1896, and connected with the east boundary of the township at Wolseley river. This boundary is well cut out and we were able to get a sight of about one and a half miles along it, we then proceeded to the southeast corner of the township where we found the tamarac post mentioned in the field notes supplied us, as marking the starting point of our survey.

From this post we carried on the work of survey westerly and northerly, retracing the south boundary and planting posts where specified.

On account of the north boundary measuring one chain and fifty-five links more than the south boundary or than the nett 480 chains, we ran the line between lots 2 and 3 and planted the posts so as to leave the odd measure in lot 1.

The east boundary was also retraced and rechaind across concessions I., II., III. and IV.

Nearly all of the mile posts planted in the original survey of the boundaries were found.

As will be seen by the plan and field notes the township is comparatively level and throughout the greater portion of it the rock is well covered to a considerable depth with soil. This soil in some places is sandy, in others it is a loamy clay, and for the most part is land well adapted for agricultural purposes, as was evidenced by the growing crops of several families of settlers, particularly of oats, peas and potatoes.

Except near the Wolseley river and the small lakes there is not much of the township that can be called rocky or broken. The greater part of it has, within recent years, been burnt over and is now largely grown up to poplar, birch, spruce, tamarac, willows, etc. There are, however portions that have not been so burned over, as shown by the timber map, and in these are some nice patches of hardwood bush, containing some good bass, maple and birch.

The township is fairly well watered with small creeks and the lakes. The Wolseley river is a small, sluggish, shallow stream, except where in numerous places it expands into lakes of considerable size and depth. Across lots 3, 4 and 5 it is hardly suitable for canoeing at low water, and across lots 7 and 8 this is altogether impossible.

The lakes forming the chain east of lot 9 in the fifth and sixth concessions are of the same level and might almost be considered a part of the west bays of Lake Nipissing. They have an elevation of only about five feet above it and only two short portages of about fifty feet each are required to be made from the township to reach the open water of Lake Nipissing by boat.

On lot 9 in the fifth concession between this claim of lakes and one of the expansions of Wolseley river there is a natural descent over bare rock of about twenty-five feet, over which when the water above rises about two feet higher than low water mark it pours to the river below. At this place is an excellent site for mill or other water power.

In the township are four families of settlers, who came in during the early spring of the present year and are located and making clearings, as shown on the plan. The heads of these families were probably in lumbering previous to settling there. The road shewn through part of the township was constructed by the lumbermen and is fairly good.

From the comparatively level nature of the township and the land lying to the west and north, which, as far as we could judge and ascertain, is of the same character, we are of opinion that it would not be expensive to open up a road from some point on the Canadian Pacific Railway (probably Warren station), by which means the township of Martland and the other townships adjoining such roads might be opened up to settlement for farming purposes to which they are adapted.

The survey throughout was carried on by one party and the chain men and other men employed were well qualified for the work, each having had considerable experience, band chains were used in measuring. Observations showed the magnetic variation to be 7 degrees west. The compass needle worked very steady and in no part was there any perceptible local attraction. The township contains altogether 23,086 acres, of which 845 acres are of water.

The survey of the lakes was made with the Rochon micrometer.

When the work of survey was completed we left the township by settlers' sail boat through the lakes in the north part and across the west end of Lake Nipissing to Sturgeon Falls, on the Canadian Pacific Railway and thence home.

All of which is respectfully submitted.

We have the honour to be, Sir,

Your obedient servants,

COAD & ROBERTSON,

Ontario Land Surveyors.

Honourable J. M. GIBSON,
Commissioner of Crown Lands.
Toronto.

(Appendix No. 20.)

TOWNSHIP OF AIRY,

DISTRICT OF NIPISSING.

PETERBOROUGH, ONTARIO,

December 7th, 1896.

SIR,—I have the honour to submit herewith the plan and field notes of the township of Airy, in the Nipissing District, surveyed under instructions from your Department, dated May 28th, 1896.

The township lies immediately south of the Algonquin Park and on the line of the Ottawa, Arnprior and Parry Sound Railway, now completed and opened for traffic.

Having taken the necessary observations, etc., I commenced the survey by producing, as instructed, the side line between lots 5 and 6, surveyed by O. L. S. Purvis, in 1893, for the St. Anthony Lumber Company, south to the south boundary of the township (being the north boundary of the township of Sabice) at the same time laying off the

concessions IV., III., II. and I. I also produced the concession lines IV. and V. and VI. and VII., which had been run by Mr. Parvis through the first ten lots,

I carried the survey of these first seven concessions to the east boundary, after which I moved to the west side of the township and thence carried the survey of the remaining seven concessions to the same boundary, thus completing the regular survey of the township.

I planted three of the iron posts, supplied and marked by the Department, in their proper places, facing them respectively to the townships marked on them. At the south-west, south east, and north east corners of the township, and the fourth iron post I planted on the north boundary, at the distance of four chains and forty links east from the northwest corner, which is in a lake.

That part of the township bounded by Hay Creek on the west by the Madawaska River on the north and by the side line 25 and 26 on the east containing about 12,000 acres is a very fair tract of land for this country.

It is composed of a sandy clay loam of average depth and tolerably free from stone and where not burnt there is a fair growth of mixed bush, the hardwood kind predominating.

On this land there are already some fifteen settlers who are hewing out for themselves comparatively good homes and now that the railway is opened through it there will, in a few years, no doubt, be formed a thriving settlement.

The small tract west of Hay Creek and all the remainder of the township north of the Madawaska are broken by gniess ridges and rock outcrops more or less rugged, but in the valleys between, stretches of fertile alluvial soil are frequently met with.

This rough country is densely wooded with a mixed bush chiefly white pine with balsam, spruce, cedar, birch and willows in about the orders named. The pine is a fair quality and size while the other woods attain average size, but at the present time are not deemed of much commercial value. The Madawaska river which flows in a southeasterly direction through the township is a rapid stream averaging about two chains in width and eighteen inches deep, having a stony bed and flat rocky banks for the greater part.

On lot 28, concession IV., there is a fall of seven feet in a distance of about three chains. Hay creek flowing out of Hay lake in the township of Sabine discharges into Long Lake and the Madawaska, it averages nearly two chains wide and is, in places three feet deep having a slow current.

The township is generally over-spread with lakes and streams, all of them of good clear water, but contain very little fish of value. The geological features of the township are of the kind prevalent in this district and therefore need not, I presume, be further described here.

The village of Whitney exclusively the property of the St. Anthony Lumber Company is situated on the north parts of lots 6, 7 and 8, concession V. The company's large sawmill is on lot 6, on the southeast shore of Long Lake.

It is fitted with all the modern appliances such as band saws, gates, etc., and has a working capacity of 400,000 feet B.M. per twenty-four hours.

The mill is lighted throughout by electric light manufactured by the company's plant on the premises.

Up to the 1st September the mill was run day and night, but after that date in the daytime only until the close of the season.

There was in the piling yard in September about 30,000,000 feet pine B.M. On lot seven there is a planing mill which is used mainly for local purposes.

The village has a population of about four hundred. There are about fifty buildings, clapboard, one church, one school, one general store (company's), post office, bakery, blacksmith and barber's shops.

On the north side of the river on lot 8, concession VI., there is a group of eight or ten houses and two stores, having a population of probably forty or fifty people.

A little further to the northeast on lot 10, concession VII., there is another small hamlet called Nipissing of some seventeen log houses, occupied also by employees of the St. Anthony Company, numbering about fifty or sixty, this giving a total resident population in connection with the company operations of five hundred people.

As will be seen by a reference to the accompanying plan that the Ottawa, Arnprior and Parry Sound Railway, through the township, runs, for the greater part, along the south bank of the Madawaska, partaking pretty much of its windings, etc.

There are but few heavy cuttings or embankments on this part of the line, although considerable work has been encountered in rounding the numerous hills and side slopes that occur en route by the river's side.

On lot 12, concession VII., the railway crosses to the north side of the river over an iron bridge on good masonry abutments. After proceeding about one mile west of Whitney Station the line crosses Mud lake on a pile bridge for part of the way. A short branch line is run from the railway station to the piling yard, crossing the river on a wooden truss and crib abutments. The road shows good working grades, is substantially built and is destined, I believe, to do in the near future a large and paying business. Viewing the township as a whole, I consider that forty per cent. of the land area is suitable for cultivation, while a large percentage of the remainder can advantageously be used for pasturage and other purposes. A list of the settlers, giving the extent of improvements, values, etc., is furnished herewith.

Hoping the returns will be found satisfactory,

I have the honor to be Sir,

Your obedient servant,

JAMES W. FITZGERALD,
Ontario Land Surveyor.

The Honorable J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 21.)

TOWNSHIP OF MACPHERSON.

DISTRICT OF NIPISSING.

INGERSOLL, ONTARIO,
October 26th, 1896.

SIR,—I have the honor to report the completion of the survey of the township of Macpherson in the District of Nipissing, also the survey of a meridian line between townships numbers 12 and 20, commencing at the north-west corner of the township of Falconer, performed under your instructions of the 18th day of June, 1886.

I proceeded en route to Sturgeon Falls, where I procured men, canoes and supplies, and from there with nine of a party to the western bay of Lake Nipissing, camping close to where the line between townships numbers 12 and 20 would likely cross said bay.

I commenced my survey, as instructed, at the northwest angle of the township of Falconer, where I found a good pine post planted and well driven in the ground and marked on the north west side XX., N.E. side XII, S.W. side XIX., S.E. side XI. From this post I ran due north astronomically six miles, planting wooden posts in stone mounds at every mile, until the sixth mile was reached, where I placed a large pine post and an iron post. The wooden post is squared and so placed that the lines connecting the cardinal points will pass through the angles, on the north-east side is cut Lot 14, Concession 1, and on this side the iron post is planted and is marked with Macpherson facing the township. At the northwest angle I planted a pine post marked Dunnet on the north side and on the southeast side Lot 14 Con. VI. also an iron post marked on the S.E. side Macpherson and on the S.W. side XXI. At the N.E. angle I placed a tamarac post marked on the S.W. side con. VI. lot 1. and on the N.W. side con. I. lot 1, also an iron post marked on the N.W. side Kirkpatrick, and on the S.W. side Macpherson. The eastern end of the south boundary being a marsh I planted on the line and in front of lot No. 2, 90 links from the shore of this marshy bay of Lake Nipissing a pine post in stone mound and an iron post marked Macpherson on N.W. side.

The portion of my west boundary lying north of the north-west arm being a part of the west boundary of Caldwell was surveyed before, in 1880. This line was grown up again with a thick undergrowth. I reopened this line in order to chain it, reblazing the trees as I went along.

The north boundary of my township being the south boundary of Kirkpatrick, and a portion of the south boundary of Dunnet was re-surveyed and re-posted by myself. I followed Salter's base line, which was not well adhered to in the survey of Kirkpatrick. I opened up a good line for my north boundary, cutting out all the underbrush and reblazing the trees.

I made an accurate micrometer survey of the water within the boundaries of my township, and an accurate survey of the shore of Lake Nipissing forming part of the easterly boundary of the township.

Regarding the general character of the township, it may be described as follows. The more descriptive particulars will be found in the field notes. The six miles of line between townships number 12 and 20 is all through a burned and rocky broken country.

The township of Macpherson on the whole is rather rocky, hilly and uneven, but throughout the township there are many tracts of low, level land and when cleared would be well suited for agricultural purposes.

On the south shore of the northwest bay of Lake Nipissing, which runs into the township some two miles and a half, there is a rocky bluff extending back about half a mile beyond which there is a belt of good land extending almost to the southerly boundary of the township, but being broken in places by rocky bluffs. On the north side of the bay the soil is a fair depth for about ten chains back from the shore, but beyond that it is changeable, rocky and uneven in some places, and swampy and good in others, more particularly in the northeast corner.

About two miles west of this bay, and joined to it by a creek, navigable by canoes, is a lake about two miles long, extending southwest a mile and a half from the mouth of the creek. The shores of this lake are rocky and rough, south and west of this the land is variable, in places very rough and rocky and in others level and good soil, more especially in the southwestern corner of the township. North and west of the lake the country is generally rocky, but along the valley of a creek running into the township from the west, at the upper part of concession V., and in some large marshes the land is very good. The land along the north boundary is varied but a great deal of it is good and mostly taken up by squatters.

On the point extending into Lake Nipissing, at the east of concessions I and II, the land is mostly marshy, submerged in the spring, with some rocky bluffs.

There is a plentiful supply of water throughout this township. The northwest bay of Lake Nipissing extends in through the east boundary at the third concession and extends in a northwesterly direction to lot number 6, and varies in width from ten to forty chains. Running into this bay from the northwest is a creek, navigable by canoes, which flows from the south side of a lake situated in concession IV and extending from lot 7, in the northeast part of the concession, to lot number 11 in the southwest of the same concession.

This lake has its greatest width about lots 8 and 9, where it is about sixteen chains wide and narrows at either end into long bays. Flowing into the lake from the northwest is a winding creek of some sixty links in width, coming into the township at the northern part of the west boundary of concession V and into the lake at the western side of lot number 9.

On the south boundary a large marshy creek, flowing from the northwest, runs near the boundary from lot 6 to lot A, where it empties into the middle west bay of Lake Nipissing.

This creek is navigable by canoes for some three miles.

Other small creeks traverse various parts of the township.

The waters are well stocked with fish; bass, pickerel, pike and sturgeon, while about the marshes ducks are plentiful.

All along the north boundary the land has been taken up by French Canadians, emigrated from Michigan, and a few from Massachusetts. Lots 1 and 2, concession IV and V, are also taken up, while prospectors from Wisconsin and other parts were looking at land south of Northwest bay.

There is a good settler's road along the north boundary, extending westward to lot 13, while a road is being cut along the east boundary, south of the lake, to replace a road already made through lot number 1.

There is little timber of any value, as the township has been over-run by fire, and seemingly the fire has swept over this part of the country at various periods.

The second growth is principally poplar, birch, pitch pine, with some balsam, tamarac, ash and maple. The swamps are mostly grown up with thick alders and willows.

The lines are well opened out and the trees blazed. Large posts nicely made are planted throughout the township, and in every case, where necessary, a stone mound has been placed around the posts.

I have the honor to be, Sir,

Your obedient servant,

W. R. BURKE,

Ontario Land Surveyor.

The Honourable J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 22.)

TOWNSHIP OF FALCONER.

DISTRICT OF NIPISSING.

BROCKVILLE, ONTARIO,
October 1st, 1896.

SIR,—I have the honor to submit the following report on the survey of the township of Falconer, in the District of Nipissing, surveyed by me during the past summer under instructions from your Department bearing date June 18th, 1896.

The work was reached via North Bay, where a steamer was chartered to take myself and party and supplies across Lake Nipissing and down the French river and its north branch to the first rapids. From the latter point recourse was had to a large boat and canoes, by means of which we reached the point on the north branch where it is intersected by the base line of O. L. S. McAree, run in 1882. This base line forms the south boundary of Falconer, and by following the base line westerly about one-fourth of a mile the southeast angle of the township was found at the post planted by Mr. McAree.

The township of Falconer comprises what has heretofore been known as timber berth 11.

The work of surveying was commenced on the 30th July by retracing the south boundary of the township as the front of the first concession and by retracing the east boundary run by O. L. S. Niven, in 1886, at the distance of eighty chains from the south-east angle, the concession line between the first and second concession lines was started west from the east boundary and run through to the west boundary of the township. This line and the lines between lots 6 and 7 in the several concessions were made bases for the sub-division of the township.

In performing the survey, care was taken to open and blaze the lines well and permanently mark the positions of the corners established, by building stone mounds around the posts planted wherever stones were available.

Iron posts are planted in addition to the wooden posts at the four angles of the township; the one at the south-east angle has the word Falconer cut with cold chisel on its northwest side; the one on the northeast angle has the same word cut on its southwest side; the one at the northwest angle has the word Falconer cut on its southeast side and the word Martland on its southwest side and the one at the south west angle has the words Falconer and Martland cut on its northeast and northwest sides respectively.

The wooden posts planted at the four corners of the township have their respective lot and concession numbers marked upon them.

The township of Martland adjoins Falconer on the west side.

The township of Falconer like a great portion of the country in its vicinity has been burnt over, and the only green bush of any extent lies in the southeast corner; in amount about five square miles.

The green timber consists of some very good white and red pine, with spruce, tamarac, cedar, balsam, birch, and small quantities of hemlock, black ash, hard maple and iron-wood, with an occasional oak and elm.

The brule consists of small poplar, birch and pitch pine.

The township is cut up in a zig-zag manner by a chain of narrow lakes which nearly cross it three times. Their width varies from three to fifteen chains, their surfaces are upon the same level, while their waters are very soft and are stagnant. The shores of these lakes are generally spreading, bold and precipitous, reaching a height of one hun-

dred and twenty feet or more in some places. This chain of lakes has doubtless been at some former period an arm of the French river, which is noted for its deep hidden bays. They can be reached from the north branch of the French river, from the east boundary of Falconer in concession IV. where their waters discharge through a slow running channel into the French river. These lakes are connected by portages with one another, and with the Wolseley river flowing through the southwest corner of the township.

This river enters Falconer on the west boundary in concession II. and flows southeasterly into Wolseley lake, lying to the south of the central portion of the township. The waters of the river have little or no current while its shores vary from marsh to steep and bold rocks.

The geological formation of this section of the country is Laurentian, but there are some excellent tracts of land as will be seen by reference to the field notes, they consist of clay, clay loam and sandy loam, and wild grasses grow luxuriantly in many parts of the burnt portions. At least 60 per cent. of the township is adapted to agriculture.

Moose and red deer seemed to be quite plentiful, but there are few, if any, fur bearing animals. Fish are abundant in the French and Wolseley rivers and Wolseley lake.

Lumbering operations have been carried on to the south and east of Falconer. No economic minerals were met with. The average magnetic declination was $7^{\circ} 30'$ west. Herewith are full returns of survey.

I have the honor to be, Sir,

Your obedient servant,

B. J. SAUNDERS,

The Honorable J. M. GIBSON,

Ontario Land Surveyor.

Commissioner of Crown Lands,
Toronto.

(Appendix No. 23.)

TOWNSHIP OF ETON.

DISTRICT OF RAINY RIVER.

TORONTO, ONTARIO,

September 19th, 1896.

SIR,—I have the honor to submit the following report on the survey of the township of Eton in the District of Rainy River as subdivided by me during the present season under instructions from your Department, bearing date the 18th day of June, 1896.

This township is bounded as follows, on the east by the township of Wainwright, on the north by the township of Rugby, and on the south and west by lands of the Crown, at present unsurveyed.

Commencing the survey at the southeast angle of the township as defined by the 72d mile post of O.L.S., Niven's 6th meridian line, where there is an iron post marked "Lot 12" on the east side and "LXXII" on the south side. I ran due west astronomically, planting lot posts at every forty chains until the southwest angle of the township was reached where I planted an iron post $1\frac{1}{4}$ inches in diameter forged at the top, pointed and painted red, and marked with a cold chisel "Eton" on the northeast side, at the north side of the iron bar a large pine post was also planted.

I then ran the several concession lines and north boundary, due west astronomically, from the mile post planted on the meridian line, above referred to, also the alternate side lines and west boundary due north astronomically from the post planted on the south boundary as above described, thus subdividing the township into 72 lots, 40 chains in breadth, by 80 chains in depth, the unbroken lots containing 320 acres each.

At the front angles of each lot posts of the best timber obtainable were planted and marked on the east and west sides with the numbers of the lots, and on the north and south sides, with the numbers of the concessions, except in the cases of those between lots 1 and 2, 3 and 4, 5 and 6, 7 and 8, 9 and 10, 11 and 12, which have no marking on the south sides. At the northwest angle of the township I also planted an iron bar similar to that at the southwest angle and marked "Eton" on the southeast side, and "Rugby" on the northeast side, a large pine post being planted beside it.

With the exception of a few rocky elevations in concessions V. and VI., nearly the whole surface is undulating and rolling, thus affording good facilities for drainage.

The soil is mainly composed of clay and clay loam of excellent quality, and there is scarcely a lot which does not contain enough good land to make a fair sized farm.

Fully 75 per cent. of the total area is well adapted for farm purposes.

The township is well watered by the Wabigoon, Pelican, Gull and Beaver rivers with their numerous tributaries. The Wabigoon, a fine stream about two chains in width, with an average depth of from 6 to 8 feet, and a current of about 2 miles an hour, enters the township on lot 1., in concession V., and flowing in a north-westerly and south-westerly direction, crosses the west boundary on lot 12 in concession IV. It contains good water, slightly impregnated with the clay of which its banks are formed, (hence its Indian appellation) and being free from rapids, affords uninterrupted navigation down to its confluence with Eagle river. Pelican river is about two-thirds of the volume of the Wabigoon, and is similar to the latter in many of its features, uniting with it on lot 7 in concession VI. Gull and Beaver rivers traverse small portions of the township, and have an average breadth of 50 links, with a depth of 5 or 6 feet. Both are sluggish streams. The only lake in the township is situated on lot 5 in concession I., and covers an area of 45 acres.

With the exception of a few clumps, scattered here and there, no timber of any commercial value remains, but in many places sufficient second growth tamarac, spruce, Jack pine and poplar, for the purposes of the settler can be obtained. Fire having overrun the district in 1894, the second growth timber has nearly all been killed, and the greater part of concessions V. and VI., lying north of Wabigoon river, has been almost entirely denuded, thereby rendering the clearing of that part a comparatively easy task.

No settlers have as yet located in this township, but all the arable land in the adjoining township of Wainwright having been taken up within the past year, it is probable that "Eton" will soon be the seat of a thriving settlement. The Canadian Pacific Railway which crosses the south part of the township, from side to side, affords easy access, Oxdrift station being located on lot 4 in concession 1.

Large game is very scarce, but rabbits, partridges and prairie fowl are numerous.

Blueberries, raspberries and wild currants were found in great abundance.

No economic minerals were seen, but it is quite possible that the rocky bluffs may yet be found to contain minerals of value.

Accompanying the report I beg to transmit a general plan, timber plan and field notes of the entire survey.

I have the honor to be, Sir,

Your obedient servant,

T. B. SPEIGHT,
Ontario Land Surveyor.

The Honorable J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 24)

TOWNSHIP OF RUGBY.

DISTRICT OF RAINY RIVER.

PORT ARTHUR, ONTARIO.

November 20th, 1896.

SIR,—I have the honor to report that in conformity with your instructions for the survey of the township of Rugby, dated the 18th of June, 1896, that I have completed the survey, plans and field notes of the same.

I commenced the survey as instructed at the northwest angle of the township of Wainwright, which is the southeast angle of Rugby. I found that O. L. S. Speight had run the north boundary of the township of Eton which is identical with the south boundary of Rugby; this I chained west and planted a post at each forty chains. I then, after taking an observation of the eastern elongation of polaris, ran the east boundary due north, planting a post at each 80 chains until I reached Pelican lake which crosses the boundary on lot 1, concession VI, the N.E. angle of which I found to be in the lake; the iron bar furnished me I planted at this intersection as being the point nearest the N.E. angle of the township. The N.W. angle of the township also occurs in a large lake; in this case I planted an iron bar at the intersection of the north boundary of lot 12, concession VI, with this lake as being the point nearest the N.W. angle of the township. All the several side and concession lines I ran, taking frequent observations for azimuth, due north and west respectively, planting posts as instructed.

The S. and S.E. portion of the township is in general gently rolling with a few hills of rock; in the N. and N.W. it is in the greater part very rough, consisting chiefly of high hills of rock, with mushkeg and small patches of clay. The soil consists of a fine white clay covering most of the S.E. portion, this is almost clear of timber and in most places can be easily made ready for the plow.

The township is well watered; there are six lakes, chiefly in the northern part; the largest, Pelican lake, occupies about 4 miles long in the N.E. corner, and extends a long way out of the township; the outlet of this lake is Pelican river, a sluggish stream about one chain wide by three feet deep with clay banks by which the water is much discolored; this river enters the township on the E. boundary of lot 1, concession II, and crosses lots 1 to 7 in concession 1, finally emptying into Wabigoon river in the township of Eton.

There is no timber of any value in the township, the south part has been completely burnt and the rest is covered by small dead second growth Jack pine, poplar, spruce and in general from 1 to 5 inches thick, very much decayed, so that a large number are blown down by every storm; the only exception to this is in a few swamps and muskegs, covered by green second growth and scrub.

Game was rather plentiful, a number of moose was seen and large numbers of partridges and pin tailed grouse.

I have the honor to be, Sir,

Your obedient servant,

A. H. MACDOUGALL
Ontario Land Surveyor.

The Honorable J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 25.)

BOUNDARY LINE BETWEEN THE DISTRICTS OF NIPISSING AND
ALGOMA.

HALIBURTON, ONTARIO,
December 7th, 1896.

SIR,—I have the honor to submit the following report on the survey of part of the Boundary Line between the Districts of Algoma and Nipissing, surveyed under instructions from your Department, dated 26th of May, 1896.

The boundary had been run in 1888 by O. L. S. Proudfoot to a point 18 miles north of the northeast angle of the Township of Lumsden, or to a point about 30 miles north of the Canadian Pacific Railway, and from this 18-mile post a due west line, known as Proudfoot's Base Line, had also been run for some distance. The 18 mile iron post planted at the intersection of these two lines was therefore my starting point.

I left Toronto on the 29th of June, going through to Wahnapiæ Station on the C. P. Railway, thence by wagon road to Lake Wahnapiæ.

Crossing this lake with my four Peterborough canoes and taking my supplies for the whole line and camp outfit with me (two trips of the canoes), I portaged over into Vermilion River; thence up stream until I came to Proudfoot's Base Line, about 90 chains west of its initial point.

The journey from Lake Wahnapiæ was a very laborious one and occupied ten days. There were a number of portages of considerable length, and the river was so shallow that the men had to wade a great part of the way, drawing the canoes after them with all that they would float, and often making three and four trips to get the outfit along.

Having started four men and three canoes with all the supplies, iron posts and articles not required for immediate use across the country to try to find a route to the Montreal River, I went east along the aforesaid base line with the balance of my party (ten in number) to my starting point, and after obtaining the necessary observations, ran north, astronomically, from Proudfoot's 18-mile iron post, a distance of 102 miles, or to 120 miles north of the northeast angle of the Township of Lumsden, crossing the Montreal River on the 71st mile and the height of land between the River St. Lawrence and Hudson's Bay waters on the 76th mile.

I reached the 120-mile point, latitude $48^{\circ} 26' 54''$ north, on the 12th of October, and then, turning easterly down the Redstone River, I crossed Nighthawk Lake, a large lake emptying into the Abittibi River and James' Bay, and after going 10 miles up the river of the same name, I portaged easterly and followed the Hudson's Bay Company's route to Matachewan Lake, an expansion of the Montreal River and upon which the Company have a "post," called "Fort Matachewan." From Matachewan I followed the Montreal River 85 miles down stream to a point about 5 miles below Bay Lake, from which a line of portages and lakes leads to Lake Temiscamingue, coming out at Pailebury, and from this point came to Mattawa by boat and rail, reaching Haliburton on 24th October.

The men with the supplies crossed the line at Welcome Lake on the 35th mile; thence through that lake and down its outlet into Upper Wahnapiæ River, and after vainly endeavoring for a week to find a canoe route to the Montreal River, returned to the line where it crosses the river on the 41st mile, from which point everything, including the four canoes, had to be carried along the line to the 54th mile, where the Montreal River was entered about 2 miles to the west and about 73 miles from Matachewan, and was made navigable for canoes after considerable labor in cutting and removing logs from the stream.

The canoe route was then down the river to where the line crosses on the 71st mile, and thence to the north end of Pigeon Lake. Here the two large canoes were left and

were afterwards taken down the river to Matachewan. The two smaller canoes were taken through on or as near to the line as possible, the Hudson's Bay Company's route to Mattagami being followed for some distance.

Owing to the difficulty of getting to the work and getting the supplies through the country, as well as the great amount of cutting on the line, the time occupied in getting the line through exceeded my estimate, and I consequently ran short of supplies. Fortunately I was able to obtain an additional supply from the H. B. Co. at Matachewan, and was thereby able to complete the work.

The line was well cut out, well blazed and carefully measured; wooden posts were planted at every mile and iron posts every three miles marked with a cold chisel "Nipissing" on the east, "Algoma" on the west and the number of miles on the south, following on in order from 18 to 120, and, wherever practicable, stones and very often large stone mounds were built around the posts. Bearing trees were also taken and their course and distance from the posts noted.

Where the end of a mile came in a lake or river the post was planted on the line on the nearest land, and distance noted and marked on the wooden post. In these cases the iron post was marked with the mile and a plus or minus sign as the case might be.

Astronomical observations were taken whenever practicable, the details of which will be found in the field notes.

The magnetic variation of the needle averaged 7° west.

GENERAL DESCRIPTION.

From the 18th to the 40th mile the line passes through a very hilly, almost mountainous, and broken country, with numerous lakes and streams, rocky and stony, with sandy soil, the principal timber being white pine, interspersed with spruce, birch, cedar, balsam, pitch pine, etc. The pine is generally of fair size and quality, but in places it is large and good, especially around Burwash lake, and from the 28th to the 37th mile the outlet for the timber will be by the Wahnapiatè river to Georgian Bay.

Along the 40th, 41st and 42nd miles the country is rather hilly, with sandy soil, and the timber is spruce, poplar, birch, pitch pine, balsam, etc.

The Upper Wahnapiatè river is crossed on the 41st mile. It is about two chains wide and from two to six feet deep, flowing southeasterly.

Near the end of the 42nd mile the line enters a level tract of country, which continues to the middle of the 54th mile. The height of land between the Georgian bay waters and those of the Montreal river is crossed about the 50th mile. Along these 12 miles the country is generally swampy with spruce and tamarac timber of fair size, sometimes open spruce swamp with small timber, and again, as on 52nd and 53rd miles, small spruce, tamarac and birch, level, sandy and no water.

From 53rd to 58th mile or Shining Tree lake, the country is again undulating, with a few hills and swamps, the timber is large pitch-pine, spruce, balsam, poplar, etc., with a belt of good red and white pine crossing the 56th and 57th miles.

The 58th and 59th miles of the line are in Shining Tree lake, the outlet of which crosses the 60th and 61st miles, and after running almost parallel to the line to the 63rd mile, makes its way to the Montreal river.

From the 60th to the 65th mile the country was burnt about 30 years ago and is now growing up with pitch-pine, birch and poplar. It is generally rocky and broken. The 66th and 67th miles are rather swampy, with large tamarac and spruce timber.

At 67 miles 57 chains 14 links a line drawn due west 28 chains 70 links connected my line with P. L. S. Sinclair's 60-mile tree on his traverse of Montreal river in 1867, said tree being 51 miles by the river from Fort Matachewan.

The 69th, 70th and 71st miles are along the Montreal river, crossing it three times. The river here is about two chains wide and from one foot deep on the rapids to 10 or 12 feet in still water. It widens in places forming long lakes. Along this river there is some clay soil, the first met with on the line; here, too, is to be found some large spruce and cedar and a few white pine.

Leaving the Montreal river at the 71st mile the line passes through a comparatively level country to the height of land between the Hudson's bay and the St. Lawrence river waters on the 76th mile. The soil is sandy and the timber pitch-pine, birch, balsam and tamarac, cedar, too, in places, generally large timber.

Upon leaving "Little Hawk Lake" at the 76th mile the line passes over the west side of a mountain 700 feet high and continues through a rough and broken country, crossing numerous lakes to the 93th mile. There are burnt stretches of country along this distance, growing up with pitch-pine, poplar and birch; the greater part of it, however, is green bush and the timber spruce, pitch-pine, poplar, white birch, tamarac, balsam and cedar. There are occasional patches of white pine and more or less scattering pine. Soil sandy. Along Kitchemene lake for some distance the timber was nearly all blown down, making the cutting out of a line a laborious matter.

P. L. S. Duncan Sinclair's exploration line of 1867 and latitude $47^{\circ} 56'$ north was crossed at 86 miles and 10 chains, and on his 24th mile.

On the 99th mile the line crosses a river flowing northeasterly to Night Hawk lake.

After leaving the 20 year old brule at the 101st mile, the line passes through a comparatively level and well-timbered country to the 109th mile, where it leaves the sandy soil and enters upon clay land, which continues to the 120th mile. The timber along this part of the line is spruce, tamarac, birch, pitch pine, poplar, balm of Gilead, cedar, etc. The last white pine noted was on a rocky ridge at the end of the 112th mile. The line was finished on the Huronian formation on level clay land with black mould, among large poplar, spruce, tamarac, balm of Gilead and balsam.

I have reason to believe that this kind of country extends west to the Mattagami river and a long distance north. The land east of Night Hawk lake and up the river is of a similar description; apparently the line had just entered upon a very large tract of rich agricultural land. One of the men said from the top of a tree, "I can see a whole county of it."

As will be seen by the plan, the line crosses numerous small lakes and streams, and the country may be said to be well watered. Burwash lake, draining into Georgian Bay, is of considerable area, and Night Hawk lake, about two miles to the east of the termination of the line, is about 8 by 10 miles. It drains into James' Bay, and is said to contain 50 islands. The route from this lake to Matachewan, after leaving the Night Hawk river a few miles, passes through a sandy, burnt country for some distance.

It is worthy of note that there has been no fire along the 100 miles during the last fifteen years, and the so called brule is the result of fires that happened from fifteen to forty years ago. The prevailing timber along the whole line is spruce. In places it is large and scattering, fit for sawlogs and from fourteen to twenty-two inches in diameter. It is of all sizes and ages, from the fifteen year old brule of two and three inches to the 100 year green bush. A great deal of it is from eight to twelve and fourteen inches. There is quite an amount of tamarac in the country fit for railway ties and a vast amount of pitch pine of large size, twelve to fifteen inches diameter; a few groves of maple were met with on the Georgian bay watershed. Towards the close of the work large and tall poplar was one of the principal kinds of timber. There is not much cedar in the country.

The geological formations passed over were the Laurentian and Huronian, but as Mr. Barwash, who accompanied me, brought down a number of specimens of rock and will make a special report, I need say nothing more.

The lakes were well stocked with fish, pike, pickerel, bass and salmon trout. Moose and caribou were frequently seen. Partridge were more numerous towards the south

end of the line than the north. Beaver were occasionally met with, causing us some inconvenience with their dams.

The Montreal River from Matachewan to Lake Temiscamingue is a fine stream, with but few portages. It is generally about 200 feet in width and expands into lakes in many places. By the erection of a dam at the east end of Bay Lake—not far from Lake Temiscamingue—to flood a rapid of a few feet above the lake, the river could be made navigable for small boats for a long distance. There is quite an amount of good pine along the river and level clay land for settlement for many miles.

“Mount Sinclair” on Sinclair’s line, about 14 miles west of Matachewan and 6 miles east of my line, is a conspicuous land mark and said to be 1,500 feet over the general level of the country. The season was favorable for the work, very little time having been lost by rain.

In conclusion, I may say, that the survey was one that entailed a great deal of labor, difficult to get to and a difficult country to get through, hilly, brushy and heavily timbered. Twice out of provisions, and a canoe journey of 150 miles at the close of the work.

I have the honor to be, Sir,
Your obedient servant,

A. NIVEN,
Ontario Land Surveyor.

Honorable J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 26)

TOWNSHIP OUTLINES.

DISTRICT OF RAINY RIVER.

COLLINGWOOD, ONTARIO,

November 30th, 1896.

SIR,—I have the honor to submit the following report on the survey of township outlines along the line of the Canadian Pacific Railway, in the District of Rainy River, performed during the past summer under instructions from your Department dated the 10th of July, 1896.

The work is a continuation of that begun in 1891 and which has been carried on each season since that time, and consists in a traverse of the railway track from which work the townships adjacent thereto have been located.

In addition to the traverse and to the location of township boundaries, portions of the latter were run.

In most cases, where practicable, these lines were continued to the nearest township corners.

I commenced the survey this year where I closed a year ago, viz. : At an iron plug at the intersection of the centre of the railway track with the division line between the districts of Thunder Bay and Rainy River, as run by O. L. S. Niven in 1890, and which is a little east of English River Station. From this point I carried the traverse on continuously to its intersection with the east boundary of the township of Van Horne, with which I connected it. This portion of the work is shown on sheets 1 and 2 in the returns of survey.

I then moved camp west of the surveyed townships of Van Horne and Eton, and again commenced a traverse westerly from the intersection of the centre of the railway track with the west boundary of the latter township, having definitely located this point by chaining this boundary south to the southwest corner of the township.

From this point I continued the work on the same system as heretofore till I intersected the east boundary of the township of Haycock, with which I connected the traverse and concluded this season's work.

This portion of the survey is shown on Sheet No. 3.

Posts made of iron gas-pipe, 1 5-16 inches in diameter, plugged and pointed and painted red, were planted alongside of wooden posts at all township corners to which I ran, as well as at the intersection of the township boundaries with the railway right of way. Both the iron and wooden posts were marked with the numbers of the townships on their respective sides, the former with a cold chisel, and in most cases stones were piled around the posts and bearing trees taken where available.

In addition to the posts above mentioned, flatted mile-posts, made of wood, were planted on the portions of the township boundaries that were run.

They were numbered from the south and east boundaries of the townships.

In carrying out the work this season, as heretofore, every railway station and siding, all bridges, culverts, and gravel pits, every mile-board, and also all mining locations or other grants of land adjacent to or near the railway, have been connected with the line of traverse and their exact positions shown on the accompanying returns.

From English river westerly to a point near Mackenzie creek, west of Brulé station the country is ill adapted for cultivation, but on approaching the above creek a decided change in the soil is observable. A good clay takes the place of the hitherto long extent of sand and gravel; the swamps become less frequent and with this change in the soil follows a corresponding one in the vegetation which it produces. The timber is larger, and what is particularly noticeable is the luxuriant growth of grass in the openings. This was generally clover and timothy, near the railway track, the seed of which was no doubt distributed during the construction of the road.

This belt of clay land may be said to extend westerly to about the neighborhood of Vermilion bay station, a distance of upwards of fifty miles from east to west, and includes the surveyed townships of Van Horne and Eton above referred to and the pioneer farm lately established by the Ontario Government.

From Vermilion bay west to the termination of the work the country is very rocky and is dotted over with small lakes and numerous swamps.

As a result of the several seasons' work since its commencement in 1891 a range of townships is now outlined, extending from what might be called the Sudbury district on the east to that of the Lake of the Woods on the west, a distance of nearly eight hundred miles, and connecting the surveys of older Ontario with those recently made near the western boundary of the Province.

I have the honor to be, Sir,
Your obedient servant,

E. STEWART,
Ontario Land Surveyor.

The Honorable J. M. GIBSON,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 27.)

REPORT
OF
THE SUPERINTENDENT
OF
COLONIZATION ROADS.

To the Honorable J. M. GIBSON,
Commissioner of Crown Lands,
Ontario.

SIR,—I have the honor to submit the following report of work done in connection with the Colonization Roads' branch of the Crown Lands Department during the year 1896.

One hundred and ninety miles of new road have been constructed, five hundred and fifty-eight and a half miles of old road have been repaired, and twenty-eight bridges, representing a total length of four thousand four hundred and seventy feet, have been built.

NORTH DIVISION.

ATIK-OKAN AND SEINE CANOE ROUTE.

This work was the opening of about six miles of portages for the purpose of giving canoeing and packing facilities over some sixty or seventy miles of mining territory in the Rainy River District, and connecting with the canoe and portage route from Lac des Mille Lacs in the Thunder Bay District. The portages opened were as follows :—

1, Baril Bay to Baril Lake; 2, Baril Lake to Burnt Lake; 3, Windigostigwan Lake to Elbow Lake; 4, Intervening Lake, involving two portages; 5, Elbow Lake to Crooked Pine Lake, with intervening lake where, 6, two portages are made; 7, portage across headland in Elbow Lake.

On the Atik-okan are, 8, portage from foot of Magnetic lake; 9, portage at foot of Sapawe lake; 10, portage 100 yards; 11, portage at first falls on river; 12, portage at rapids of 100 yards and choice of route to Steep Rock lake north through Mercury and Transit lakes; 13, easy portage of 50 yards; 14, portage at second falls; 15, portage from Steep Rock lake to Seine river.

On the Seine river are the following:—No. 16, at the first falls; 17, portage to Calm lake, about half a mile; 18 and 19, two short portages below Calm lake; 20, half mile portage; 21, short passage over naked rock; 22, 23, 24, three portages of about 300 yards each; 25, 26, two 100-yard portages; 27, 28 and 29, three of about 200 yards each at Sturgeon Falls.

ATWOOD ROAD.

One mile of road opened and generally ditched between sections 35 and 36 of the township of Atwood in Rainy River District, beginning at lot number 8 of River Range and working north.

Four bridges were built in connection with the work, aggregating a length of 109 feet.

BAR RIVER BRIDGE.

A bridge 70 feet long constructed over Bar river on section line between 7 and 8 Laird, and is comprised of four pile bents and two abutments upon which the superstructure rests.

About half a mile of road leading to the bridge was also opened in addition to the bridge work.

BALFOUR ROAD.

Repairs were made over 6 miles, from the centre of lot number 2, between concessions 2 and 3 west to Larchwood station.

Half a mile of road was opened on lot number 7 in the 4th concession of Balfour and an equal length in the 1st concession opposite lot number 3 to the boundary of Creighton; with another portion opposite lot 1 concession 1 Balfour. Good work is reported throughout.

BLAIR ATHOL ROAD AND LANDING.

A wharf having a frontage of 60 feet and length of 90 feet has been constructed at Emo in the township of Lash on Rainy River.

It is a strong pile structure and arranged to accommodate steamboats at high and low water.

The grant was insufficient to complete a road from the wharf to the main road, but it has been partially opened by voluntary labor.

Considerable improvements are being made at this point, and a flouring mill, public, and private houses are being erected. Many settlers from the eastern portion of the Province are expected to locate in the district during the coming season.

BRUCE MINES AND DESERT LAKE ROAD.

A continuation of work from that of 1892, namely, from a point about three miles north of Bruce Mines northward a mile and a half.

COYNE ROAD.

About ten miles of repairs were made from the north boundary of Lefroy through the township of Rose and into Galbraith as far as lot number four between the second and third concessions.

COFFIN AND COFFIN ADDITIONAL ROADS.

This was the improvement of a very stony hill and other portions of a road on lot 12, concession 2, of the township of Coffin, and excellent work reported for the small expenditure, \$105.40.

CROZIER AND LASH ROAD.

From Lavelle river between sections 4 and 9 of Devlin, where work was ended last year, three and a half miles were chopped and grubbed to unite with that portion before opened from the east end, and completing a connection from Emo to the Rainy River road in the township of Crozier, but still requiring further grading before it is available for summer traffic at all seasons. Further ditching and draining is also required in the vicinity of this road.

DESBARATS AND PORT LOCK ROAD.

Four miles of a new road opened from Desbarats station on the Sault branch of the Canadian Pacific Railway in a southwesterly direction, into the township of Tarbutt Additional, for the chief purpose of permitting settlers of St. Joseph Island to reach the railway.

GOULAIS BAY ROAD.

Some two hundred and sixty rods of ditching and gravelling through a wet clay flat which could not otherwise be permanently repaired. Gravel had to be hauled a long distance which made the work somewhat expensive.

GRASSY RIVER ROAD.

A bridge was constructed over Pine river on the town line between Patullo and Morley, having spans of each 35, 30, 25, and 25 feet. It is a pile structure with 3 inch pine plank covering and is 115 feet long.

A ditch a mile and a half long was also opened from Rainy River, between lots 20 and 21 River Range to connect with the ditch opened last year upon the south side of the bridge.

GREAT NORTHERN ROAD.

Half a mile of work upon a low flat involving the hauling of about 230 cubic yards of gravel. The municipality spent \$200 in making further repairs upon the same road.

HAUGHTON ROAD.

This road was continued from last year's operations a mile and a half southward towards Wells road.

HONORA BAY ROAD.

The work in this case was between concessions 9 and 10 and opposite lots 28 and 29 of Bidwell township on Manitoulin Island.

The work was expensive, being through an exceedingly bad swamp. There remains a short length to be crosswayed before the road, which is a rather important one, can be used at all seasons for heavy traffic.

JACKFISH BAY ROAD.

A road opened from the shore of a small lake at the head of Jackfish Bay of Lake Superior northward to Mocon mining location, passing on its way Empress mine.

The length is $4\frac{3}{4}$ miles, of which nearly $2\frac{1}{2}$ are chopped and grubbed 20 feet wide, with a considerable amount of levelling. The balance of the length is chopped and grubbed 15 feet wide.

KAKABEKA FALLS ROAD.

Repairs upon portions opened last year between Stanley and the Falls, but chiefly upon half a mile between Oliver road and the terminus of this road.

KEEWATIN BRIDGE.

A contract was made with the Central Bridge and Engineering Company of Peterborough for the construction, erection, and completion of a steel truss one span bridge, having a length of 222 feet from centre to centre of pins and clear roadway of 18 feet.

The superstructure is intended to rest upon cylindrical piers of steel and concrete in accordance with specifications furnished and which the above company has also contracted to erect at a rate per foot.

In consequence, however, of the unusually high state of the water during the past season it was found impracticable to determine a satisfactory foundation for one of the piers and the erection of the bridge has in consequence been held over for the present. It is intended to proceed at an early date and to have the work completed before the spring freshets.

All material for the superstructure has been delivered, and the piers are ready for shipment so far as the particular lengths could be specified.

In connection with this bridge are approaches at each end of considerable length and height which, with roads leading to and from the structure, the municipalities interested are to complete.

LAVELLE BRIDGE.

The repair of a bridge in Rainy River district on the main road, injured by spring freshets. A new pier was built and new stringers and covering through the entire length of 180 feet.

LARCHWOOD ROAD.

Three miles of winter road opened, two being from the west boundary of the township of Balfour, westward into the township of Dowling, on the north side of the Canadian Pacific Railway boundary, the other mile being from the former, north on the boundary between Balfour and Dowling. It is opened 12 feet wide.

MANITOWANING AND MICHAEL'S BAY ROAD.

In the township of Tehkummah on Manitoulin Island, a mile and a half of substantial repairs were made upon seven different portions of this and other pieces of roads which in connection with voluntary work done by the settlers, is reported by the inspector as very satisfactory.

McIRVINE ROAD.

Commencing at the Crozier and Lash road between sections 9 and 10 Crozier, this road was extended north two miles to the southwest angle of section 22, and thence east one mile to the southwest angle of section 23. The entire length was chopped and grubbed, and in addition, a ten feet trail was opened between sections 21 and 22 to allow some settlers to reach the main road.

MAY AND HALLAM ROAD.

Grading was done on the town line between May and Hallam, through concessions 1 and 2, two miles, with another half mile in the third concession. A good deal of gratuitous labor was contributed.

MINNEHAHA AND MANITOU LAKE PORTAGE.

Six miles of portages have been opened between Manitou lake and Minnehaha lake, with others of a shorter character, into Wabigoon lake. The work was done under direction of the Rat Portage Lumber Company, who show by statement and expenditure of \$1,182.45, and of which amount the Government has contributed \$350, with a balance of \$50 yet to be paid.

OLIVER TOWNSHIP ROADS.

Two miles on the town line between Oliver and McIntyre, through the second and third concessions, were gravelled and otherwise improved.

Further work was contemplated, but delayed owing to unfavorable weather. The municipality granted and paid \$100 on account of the entire work as projected, and as only \$332.36 have been spent the balance due should be re-voted.

PARKE TOWNSHIP ROAD.

From the second line of the township of Prince 2 $\frac{3}{4}$ miles were opened south from between lots 2 and 3, to connect with a road already in existence, and thus giving a line for through traffic.

PINE RIVER BRIDGE.

Built over Pine river on Rainy River road, the location of which was, however, changed somewhat in order to secure a better and cheaper crossing. The structure is 303 feet long, comprised of 11 bents of tamarac piles, forming two 40 feet spans, the balance being 25 feet openings. Clusters of piles were driven above the bridge for protection. Sixty chains of ditching was also done along the road, half a mile of the same having been also brushed and grubbed.

RAINY RIVER ROAD.

Between lot number 44 river range, Rod lick, and lot number 12 river range, Wood-yatt, 2 miles of a wet portion of this road were properly graded.

RAT PORTAGE AND WHITEFISH TRAIL.

A trail of about 6 miles of portages from what is known as Yellow Girl point to Turtle lake, together with the brushing of the lake, which is about 10 miles long.

RAYSIDE ROADS.

Repairs were made from about centre of concession 1 to concession 4, about 2 $\frac{1}{2}$ miles, and from the fourth concession, 2 miles were chopped out and a bridge built. Between concessions 3 and 4 from lot number 4 a new road was made to the boundary of Balfour, and a substantial bridge built over Chelmsford Creek, thus representing at least 3 miles of new work and more than 5 miles of repairs.

RED PAINT AND SAW BILL LAKE PORTAGE.

A portage from the south end of Red Paint Lake in a southeasterly course for about a mile and a half, where the direction changes to southwestward, passing through a chain of small lakes until Saw Bill Lake is reached at a distance of about six miles, and making, the inspector states, an excellent winter road.

ROBINSON, DAWSON AND BURPEE ROADS.

On the side road allowance between lots 20 and 21 of Robinson repairs were made through concessions 9 to 11 inclusive, nearly two miles of substantial work.

In the township of Dawson between concessions 9 and 10, and across lots 24, 25 and one-half of 26, a very bad swamp was ditched and gravelled, the length being five-eighths of a mile.

Again, in the township of Robinson, between concessions 9 and 10, a mile and a quarter was repaired across lots 21 to 25, both inclusive.

ROSE ROAD.

A new road opened through the centre of sections 29 and 30 from the Government road on section 32 to connect with another road leading to Coffin road in the township of Plummer. The length is nearly three miles, of which two were grubbed and levelled.

ST. JOSEPH ISLAND ROADS.

The work this season represents about three miles of road opened and nearly four repaired, distributed as follows:—The opening of nearly three-quarters of a mile between O and P concessions across lots 18 to 20; half a mile on the W and 14 concession road opposite lots 7 and 8, and a mile and a quarter chopped out and grubbed from D line south to connect with work done by the municipality.

Of repairs, two miles and a half were between lots 5 and 6, through concessions M to P; more than one mile improved by gravelling on the Milford Haven road between concessions U and R, and five-eighths of a mile on A line. A bridge was also built over a deep ravine on the F and G line opposite lot number 22; it is ninety-six feet long, having three main bents twenty-two feet in height.

SAVANNE ROAD.

A road on the west side of Savanne river between the Canadian Pacific Railway station and Savanne village, and the distance two miles.

The sum appropriated was only sufficient to open a little less than a mile and a half as the line is through an unavoidable and very wet swamp, involving heavy ditching throughout.

A bridge across the river is also a necessity before through communication between village and station can be established.

SOUTH BAY AND MICHAEL'S BAY ROAD.

About two miles of improvements upon various portions of roads in the township of Tehkummah on Manitoulin Island, between the points indicated by the above name.

SPANISH RIVER AND KENABUTCH ROAD.

The grading of two and three-quarter miles which were opened last year at a cost of \$117 per mile for winter purposes, and designated Spanish River Road.

SPANISH RIVER CABLE FERRY SCOW.

At Massey station on the O. P. Railway a cable ferry scow has been constructed for the convenience of settlers and the public.

The scow is 36 feet by 16 feet and held and controlled by a one inch iron cable 700 feet long firmly anchored and suspended over strong wooden bents or piers. The river at this point is about 500 feet across and expensive to bridge, but the present arrangement will, to a considerable extent, meet the requirements at that point or until a bridge is built.

SUDBURY AND WHITEFISH ROAD.

A bridge one hundred and five feet long was built over a creek on this road, and a mile and three-quarters of grading and double ditching up to Vermillion river. Half a mile was also opened west of the river.

THESSALON RIVER BRIDGE.

A contribution of \$100 was made towards the construction of a bridge over the river near Thessalon C. P. R. station, the estimated cost being \$400.

THOMPSON AND BRIGHT ROAD.

Excellent repairs, extending over two and a half miles in the township of Bright.

THOMPSON AND PATTON ROAD.

About four miles of this road were roughly opened between lots 10 and 11, from the fourth concession of Patton south to Mississauga river; and in the township of Thompson a mile and a half was very fairly graded from the railway north between sections 20 and 21. The road is almost a direct one to Dean Lake station and therefore important.

VICTORIA AND SALTER TOWN LINE ROAD.

Half a mile opened on the town line named from the railway to the centre of section 31 Salter, and thence east on centre line of said section another half mile, all being new work. The intention is to continue the road south to Spanish river for more general service.

WABIGOON BRIDGE.

Owing to difficulties in getting necessary material across the lake the completion of this structure is delayed, but iron, and timber to the extent of 16,000 feet B. M. has been procured. The site of the bridge is over Wabigoon river on lot number 4, concession 5, township of Van Horne.

WAINWRIGHT AND VAN HORNE ROAD.

Eight and a quarter miles have been opened as follows:—From the line between concessions 5 and 6 Van Horne, and about that between lots 4 and 5 east between the concessions named a mile and a quarter to the centre of lot number 2, and again between lots 4 and 5 one mile was opened north to the boundary of Wainwright and continued another mile north to the line between concessions 1 and 2; thence west one mile, and thence north between lots 6 and 7 three miles to the line between concessions 4 and 5. A mile was also opened in the latter township between concessions 1 and 2 across lots 3 and 4. The whole length was brushed and grubbed with over three miles of grading. Seven bridges, aggregating a length of three hundred and seven feet, were also built.

WEBBWOOD AND BIRCH LAKE ROAD.

The portion opened last season, namely, from lot 8 to lot 12 in the 6th concession of Hallam has this year been properly graded, the length being two miles.

WHITEFISH VALLEY ROAD.

Something more than a mile and a half made from Whitefish Valley bridge built last year on lot 7, concession 4 of Gillies, and connects with Rabbit Mountain and Whitefish Lake road. The object of this road is to open into the township of O'Connor and adjacent townships.

WOODYATT ROAD.

From its intersection with Crczier and Lash road, between sections 8 and 9 Devlin, this road was opened north two miles to the corners of sections 20 and 21 of the same township. It was chopped and grubbed throughout.

The opening of a ditch is recommended from a lake at the north end of lot 33 river range in Woodyatt to run east 2,950 feet to a creek for the protection of the roads against washing and flooding.

WORTHINGTON AND WHITEFISH ROAD.

Two miles of winter road opened on the town line between Denison and Louise from last year's work, lot 9 (wrongly given in previous report as lot 3) east.

WEST DIVISION.

ARMOUR AND STRONG ROAD.

Between lots 4 and 5 through the second and third concessions of Strong, a good road has been opened and a bridge erected over the outlet of Horn lake. The work was unusually heavy and the grant was only sufficient to open a mile and quarter.

Settlers have opened it some distance southward, leaving yet, however, a mile to construct before full connection is made with a good highway to Burk's Falls, the market town of that district.

ARMOUR, 25 AND 26 SIDE LINE ROAD.

Commencing at the third concession on the side road indicated the road was opened through lot 26 in the second concession and lot 27 in the first concession to the town line between Armour and Perry, from whence the work was continued east on the said town line some 40 rods, and length altogether of $1\frac{3}{4}$ miles. It is entirely new work and well grubbed and graded throughout.

BEAVER CREEK BRIDGE.

A bridge built over Beaver Creek in the township of Monck, on the main road near the outlet of the creek. It is 64 feet long, of piles well driven, covered with 3 inch planking. One-third of its cost is to be borne by the municipality.

BEGGSBORO' ROAD.

The repair of this road through concessions 13 and 14 of McMurrich to Beggsboro' Mill, and was formerly known as Doe Lake road. A fair road is now made from Ryerson township to the railway at Sprucedale, and it is the mail route also.

BETHUNE, 12 AND 13 CON. ROAD.

Half a mile opened across lots 15 and 16 to enable certain inhabitants to reach Kearney railway station. The immediate district is somewhat rough and hilly, but better lands are said to be a "little further ahead," and more suitable for agricultural purposes.

BLACKSTONE ROAD.

Three miles of repairs from Parry Sound road to Blackstone lake, the road being in the townships of Foley and Conger.

There are many settlers in the vicinity of this lake notwithstanding the somewhat rough and broken character of the section.

BROAD RIVER BRIDGE.

A bridge on the Parry Sound road over Broad river, and now in course of construction. Work was held for sleighing as it was apparent that it could be built at less cost in this way. It will be 170 feet long and of a very permanent character. \$400 have been paid on account.

BURPEE ROAD.

The opening of 3 miles, beginning at lot 10, concession 1, Burpee, thence through lots 10 and 9, concession 2; lot 8, concession 3, and lots 9 and 10, concession 4. A rough but strong bridge was built over Shawanaga river having one 32 feet span, and two shorter ones. About half a mile of repairs were made beside in the township of Ferguson.

CARDWELL, No. 3 ROAD.

Nearly a mile and a quarter opened from Oardwell road to concession 12, between lots 25 and 26. It is an important connection and is also through good agricultural land, which is being rapidly occupied by settlers.

Five-eighths of a mile of repairs were made over the portion previously opened.

CE-CEBE LAKE ROAD.

One mile and five-eighths of a mile opened through heavily timbered land commencing at the 11th concession, between lots 25 and 26 of Ryerson, thence northward to the road allowance between concessions 12 and 13, thence east to lot number 21. The object is the opening of a way to Ce-cebe lake and steamboat landing on lot 21, concession 13.

CHISHOLM, 8 and 9 CON. ROAD.

The ditching and grading of two and three-quarter miles which had been roughly opened by settlers. The work was from Himsworth town line eastward to lot 12, connecting with Himsworth and Chisholm road which leads to the railway at Powassan.

CHISHOLM, 18 CON. ROAD.

A bridge 86 feet long and 13 feet high with a main opening of 30 feet was built over Wisawasa creek, and half a mile of new road opened and well grubbed and graded. The road ends at lot 18, making now 2 miles opened from Wisawasa road, which is between lots 10 and 11, and the settlers in the vicinity of the new road can now reach the railway.

CHRISTIE, No. 2 ROAD.

From the town line between Christie and Humphrey northward a little more than three and a half miles were thoroughly repaired and graded, the work extending to Maple Lake station on the Parry Sound railway.

CHRISTIE ROAD.

This was the repairing in a very permanent manner of two and a half miles from about a mile and a quarter east of Parry Sound eastward. Another two miles were less permanently improved but still made very passable.

COMMANDA BRIDGE.

The renewal of a bridge on Commanda Lake road across the narrows between Restoul and Commanda lakes.

It is 90 feet long with a main opening of 33 feet, and having the main piers 10 feet high built upon rock foundation. Another bridge was built over Barton creek on the same road of a somewhat rough character but strong, and a smaller one with a 20 feet opening was also built over a branch of the latter creek.

CROFT, 30 AND 31 SIDE LINE ROAD.

A bridge 150 feet long was built over a deep ravine and creek as an urgent necessity in opening a way for settlers to a road leading to Dunchurch and Ah-mic Harbor. The bridge is 12 feet high and resting upon 7 bents.

DOUDLE AND BARTON ROAD.

An extension from the Rosseau and Nipissing road between concessions 14 and 15, Gurd to unite with Commanda Lake road in the township of Pringle. One mile was chopped out, and two and a half miles of road previously opened were graded.

It is a most useful road and through a good district already largely occupied.

DORSET BRIDGE.

A bridge 223 feet long, built at Dorset to replace a structure which, through age, had become dangerous. It has one 51 feet clear span, two 25 feet spans and two 20 feet spans. The construction of the bridge maintains connection with settlements north and south on the Bobcaygeon road. Its comparatively low cost is due to the fact that much of the principal material was procured at the cost of haulage only.

DRAPER, 7TH CON. ROAD.

This work was the opening of two and a half miles in the 7th concession of Draper on the north side of Muskoka river, between lots 8 and 18. It is opened about 30 feet wide and is of easy grade throughout. A considerable quantity of timber (15,000 ft. B.M.) was used for bridges over creeks and ravines.

The municipal council contributed \$50.

DUNCHURCH BRIDGE.

A structure 90 feet long built across the narrows of Whitestone lake. Its main opening is 28 feet, with two others of 16 feet each, the centre pier being 9 feet high. The whole structure is of sawn timber with 3 inch covering.

EAST RIVER BRIDGE.

A bridge built over East river in the 8th concession of Chaffey. It has one main opening of 60 feet and two of 16 feet each. The piers are 10 feet high and the total length of structure 115 feet. About 1,100 cubic yards of material were moved by scraping in order to make proper approaches.

GOLDEN VALLEY ROAD.

Nearly two miles of repairs from lot number 7, between concessions 9 and 10, westward.

HIMSWORTH AND LAURIER T. L. ROAD.

This was the opening of a little less than a mile on the town line named to meet a road to the railway at Trout Creek. It serves settlers to the west and south and is of general advantage to that district.

HIMSWORTH AND CHISHOLM ROAD.

The grading of half a mile of the Black Creek flats between concessions 10 and 11 and opposite lots 9 and 10 of Chisholm. Earth to the amount of 2,000 cubic yards was moved in raising the road above high water mark.

INDIAN PENINSULA ROADS.

Upon the east side of the Peninsula (county of Bruce) on Peninsula road proper, nine miles were repaired from the limit between Eastnor and Lindsay north to lot number 35 of the latter township. Five miles were also improved from lot 25, concession 8, E B R., northward; and again, through almost the entire township of Eastnor upon the same road repairs and improvements were made.

Upon the west side of the Peninsula, in the township of Albemarle, 5 miles; in the township of Eastnor, 4 miles; and in the township of Lindsay, 9 miles were repaired, giving a total of 43 miles of improvements upon the two main roads.

KELLY'S SWAMP ROAD.

A bridge built on the side road between lots 30 and 31, of Gurd, over Black creek, having a main opening of 30 feet and 225 feet of earth approaches.

Half a mile of road was also repaired from Westphalia road northward.

McDOUGALL ROAD.

Repairs from lot 27, concession 2 of McDougall eastward two and three-quarter miles to Mill lake. This is a portion upon which there are very few settlers, while east and north there are many who use and require it going to and from their chief market town, Parry Sound.

McMURRICH 30 SIDE LINE ROAD.

A mile and a quarter of work, half a mile being the repair of a piece previously opened; the balance being new and of a heavy character. The grant was insufficient to complete the opening to the railway as was contemplated.

McKELLAR CENTRE BRIDGE.

A bridge one hundred and sixty-four feet long, including approaches erected over Seguin river on McKellar Centre road, lot 22, between concessions 3 and 4 McKellar.

Its height is fourteen feet and main opening thirty-two feet.

MAPLE ISLAND BRIDGE.

Necessary repairs and covering anew with three-inch plank of this structure, which is on the Northern road near the town line of Ferris and McKenzie. The bridge is one hundred and four feet long.

MAGANETAWAN ROAD.

The repair of a very rough and broken section from the outlet of Ah-mic lake westward towards Ah-mic harbour.

Twenty-five stone culverts were constructed and a considerable quantity of cross-waying was also laid, accounting largely for the short length of a mile and a quarter which was improved.

MAGANETAWAN RIVER BRIDGE.

A structure erected over Maganetawan river on the town line between Bethune and Proudfoot. It has a main span of fifty-five feet and total length of one hundred and one feet.

The bridge is on a main road leading to Kearney station on the Parry Sound railway, and therefore of great value to the community.

MARKSTAY AND KOO-KA-GAMING ROAD.

This work was the location only of a road from Markstay station of the C. P. Railway northward through the townships of Hagar, Loughrin and Davis to Koo-ka-gaming lake, about and near which are a number of mining locations. Some fair land is reported on the line of the road.

MUSKOKA ROAD.

A continuation northward between lots 15 and 16 of Gurd, through concessions 7 and 8 and into the first concession of Nipissing.

The length opened was a mile and a half; and another mile would complete it to Alsace road between concessions 1 and 2 Nipissing. Upon a southerly portion of this same road two and a half miles were repaired in the township of Armour between concessions 3 to 8.

MUSQUOSH ROAD.

Two and a half miles of substantial repairs from lot 28, concession 7 Muskoka township to the east town line of the township of Wood. This is the only present highway between Gravenhurst, Bala and Georgian Bay.

NORTHERN ROAD.

From lot 10, concession 14, Ferris, five miles of partial repairs were made towards Golden Valley road in the township of Pringle.

NORTH-WEST ROAD.

Repairs were made over about two and a half miles, beginning between lots 9 and 10 concession 2 Carling, thence south to the township of McDougall, thence about a lake shore on lot 5, concession 12 to the road allowance between lots 5 and 6 through the 11th concession where it joins the Carling road.

PERRY 5 AND 6 SIDE LINE ROAD.

Two miles and a half opened on this side line through concessions 3 to 6, inclusive, and reaching the Parry Sound railway. It is a most useful work, and although somewhat rough as a road, is already in use by settlers hauling wood and tanbark to the railway.

PORT COCKBURN AND CHRISTIE ROAD.

The substantial repairing of four and a half miles between the south boundary of Christie and Port Cockburn. This work connects with Christie No. 2 road, which was also thoroughly repaired, making an excellent highway between the Parry Sound railway at Maple Lake station and Lake Joseph. The municipality of Humphrey is to give a contribution on account of the above.

ROSSEAU RIVER BRIDGE.

For this expenditure, \$116.89, a bridge seventy feet long was built over Rosseau river on the Cardwell road, the municipality providing all material. It has one span of 35 feet and one of 20 feet.

RYERSON JUNCTION ROAD.

Repairs were made over portions of five miles, but the chief work was upon three bad hills, which have been materially reduced and improved. It is the main road from Burk's Falls westward.

SEVERN RIVER BRIDGE.

A contribution of \$1,500, equal to about one-third the cost of a steel bridge constructed across the Severn river between the townships of Morrison and North Orillia. The length of the steel portion is 215 feet 6 inches, divided into three spans, which rest upon stone piers and abutments. Solid earth approaches at each end, 381 feet long together, complete the work in a very substantial manner at a total cost, as reported by the bridge commissioner of the county of Simcoe, of about \$4,500.

SHORTS' MILL ROAD.

The repair of a mile and a half of this short road, which is from the Northern road westward through the 4th concession of the township of McKenzie and through lots 1 to 8 or 9.

SINCLAIR, 9 AND 10 CON. ROAD.

Two and a half miles opened on the concession line mentioned between lots 20 and 30. The district is somewhat hilly, but nearly all the land on this new line is located, and many are now resident there.

SOUTH RIVER BRIDGE.

The renewal of a bridge built in 1879 at Nipissing village at the end of the Rosseau and Nipissing road. It was built at that time by contract and cost \$1,145.

The new structure is reported as an excellent one and the cost, \$762.28, very reasonable.

The structure is 182 feet long, having two 40-foot spans. One pier, which is 26 feet high, is, with another 16 feet high, filled with stone.

SURPRISE LAKE ROAD.

From the railway crossing, lot 2, concession 5, Laurier, repairs were extended a mile and a quarter to lot 7 through a very broken country, but the only outlet for settlers in the northern portion of the township to their market at South River.

TASSO LAKE BRIDGE.

Repairs to this structure, which is on the highway to Algonquin Park. Lumbering operations and floods made it necessary to raise a portion of the bridge, which, with other work, cost \$219.18.

WESTPHALIA ROAD AND BRIDGE.

Work, as to the road, was the substantial improvement of three seriously bad hills east of Trout creek and approximately between concessions 2 and 3 of Himsworth.

The bridge work was the driving of four pile bents under an 80 feet span, thus reducing the openings and making the structure firm and safe.

WILLETT ROAD.

One mile and a quarter of repairs upon this road, which was opened last year and upon which there is a large traffic.

WILSON LAKE ROAD.

This road passes through lots 32 and 33, concession 12, and lots 33, 34 and 35, concession 11, of the township of Mills, and was partially opened last year. This season one mile was chopped out, making the whole length passable in a somewhat rough district.

WOLF RIVER BRIDGES.

A bridge 250 feet long was built over Wolf river on Mills road, having two abutments and five piers, with average height of twelve feet. Cost, \$485.09.

Another bridge on Upper Wolf river, on the Northern road, was repaired, with four bad hills between Commanda and Golden Valley roads, the latter repairs costing \$105.09.

EAST DIVISION.

ADDINGTON ROAD.

Three sections of this road were repaired, namely:—eleven miles from the south boundary of Abinger northward; nine miles from Kaladar station of the Canadian Pacific Railway southward to lot 23, concession 4, Sheffield; and thirdly, four miles of repairs from a point about five and half miles south of Peterson road southward.

ALICE, 10 AND 11 SIDE LINE ROAD.

This is one mile of new work through concessions 9 and 10, and of great advantage to settlers living in the southern part of Alice.

ALICE, 20 AND 21 SIDE LINE ROAD.

This also is the opening of one mile through concessions 9 and 10 on the side line named. A quarter of a mile remains unopened for want of funds.

BARRY BAY AND BELLS RAPIDS ROAD.

Commencing about four miles west of Barry Bay where work ended last year, two and a half miles were well repaired.

This road is the chief highway from the north portion of Bangor to the Ottawa, Arnprior and Parry Sound Railway at Barry station.

BARRY BAY AND COMBERMERE ROAD.

An old settlers' road and lumber trail about thirteen miles long between Combermere and Barry Bay station and the O. A. and P. S. railway, which was repaired in some degree throughout the entire length. Further work is however necessary before it can be said to be in good or even in fair condition for general traffic.

BATTERSEA ROAD.

Three miles of excellent work in grading and general repairs beginning at lot 16, concession 4, Storrington, and extending eastward towards the Rideau canal in the eastern part of the township.

BEXLEY ROAD.

Between Victoria road and Cobocok, (about nine miles), there is much travel, but a considerable portion of the length is through a somewhat barren district, making it difficult to maintain by local labour. For the grant this year \$300, and a further contribution of \$100 by the municipality, eight miles of the distance were very substantially improved.

BLEZARD ROAD.

Three and three quarter miles of new work from Blezard mine northerly, the object being to serve and further encourage a settlement about Whitney lake where there is a considerable quantity of agricultural lands and some thirty persons already in occupation.

BOBCAYGEON AND NORTH-WEST ROADS.

From a point three quarters of a mile north of Black river four and a half miles were opened northward, and from the same point of beginning repairs were made southwards nine and a half miles, all upon the Bobcaygeon road.

On North-West road four and a half miles of general repairs were made from lot 6, concession 13, to lot 17, concession 10, Dysart.

BONFIELD, 3 AND 4 CON. ROAD.

This is really the opening of the road allowance between lots 30 and 31 through concessions 3 and 4, a length of a mile and quarter. Work was also done on the 4th concession line in repairing some very bad hills opposite lots 29 and 30.

BONNECHERE BRIDGE.

This is an uncompleted work, it being determined that its erection could be done with more economy after the formation of ice. It will be a bridge of cedar 150 feet long with main opening of 25 feet, and main piers 20 feet high. The material is furnished by the municipality.

BROMLEY, 12 AND 13 PROOF LINE ROAD.

One mile of repairs on this line in the 7th and 8th concessions of Bromley. It was a low wet portion requiring grading and gravelling. This road is the most direct route between Douglas and Cobden station on the Canadian Pacific railway.

BROMLEY, 27 AND 28 SIDE LINE ROAD

This work was from concession 5 to the west boundary of the township of Bromley, on or near the line between lots 27 and 28. It had been roughly opened by the settlers through the two miles which were improved.

BRUDENELL AND KILLALOE ROAD.

A new portion opened from the 16th concession of Brudenell northward between lots 9 and 10, two and a half miles, which were very well prepared for winter use at any rate, to enable settlers to reach Killaloe station on the Ottawa, Arnprior and Parry Sound railway.

BUCKHORN ROAD.

From Hall's Bridge about lot number 12, concession 8, Harvey, repairs were made northward to Gooderham station, on the Bancroft, Irondale and Ottawa railway, in Cavendish, the distance being twenty-three miles, and the improvements extending over the whole length.

Two miles of work was also done in the township of Smith upon some hills which, owing to their bad condition had practically been abandoned by the public. The Government grant of \$500, supplemented by a grant of \$300 from the township of Smith, was spent upon the two miles referred to, and the expenditure is said to have given universal satisfaction.

BUCHANAN ROAD.

A road from Chalk River station on the Canadian Pacific railway to the Ottawa river, which have been chopped out by the settlers. Two miles were improved this season, and with last year's work, opens the entire length.

BURLEIGH ROAD.

Fifteen miles repaired from Burleigh Falls northward. A considerable portion of this road, which is the main one in the county, passes over a somewhat barren range which the inhabitants do not appear able to properly maintain without occasional assistance.

BURNT RIVER BRIDGE.

This bridge which is on the Bobcaygeon road near Kinmount, is one of considerable size having two 60 feet clear spans. It was built about 18 years ago and therefore naturally in need of renewal. The structure was thoroughly overhauled and repaired, and made safe for perhaps eight or ten years.

The township of Somerville contributed \$150 of the expenditure, the balance, \$249.90, being contributed by the Government.

CALDWELL ROAD.

This work is from the town line between Dunnet and Kirkpatrick west between concessions 5 and 6 to lot number 9, a length of four and a half miles, 3 of which was construction, and the balance improvements of portions previously opened.

A portion of the new road was through cleared land, easy to make and accounting for the unusual length built for the appropriation.

CALDWELL, No. 3 ROAD.

Three and a half miles opened across lots 9 to 12, inclusive of Caldwell, and lots 1 and 2 of Kirkpatrick, all being along the line between the 2nd and 3rd concessions.

Two miles were partially graded, the balance being but roughly opened in order to accommodate some fifteen or more settlers of Kirkpatrick, shut in for lack of a road.

CALDWELL AND WARREN ROADS.

A contribution made on account of some four miles of colonization roads and a bridge built by the Imperial Lumber Company, and representing a cash outlay of \$2,000 or over.

CARDEN AND DALTON T. L. ROAD.

This was the opening of a mile and a quarter of new and heavy road on the town line between Carden and Dalton, from concession 5 Carden westward. A bridge of considerable dimensions was also built over Swamp creek. A short length remains unfinished for want of funds, but when completed it will give a highway to market for many settlers, several miles shorter than they have been obliged to travel.

CARLOW ROAD.

Repairs from lot number 20, concession 9, to the same lot number in concession 7, of the township of Carlow, two and a half miles. It is a valuable road for settlers in the west and north portions of the township.

CAVENDISH ROAD.

From lot number 23, concession 15, eastward, to the boundary line of Cavendish, seven miles were repaired, and again, over what is called Reid road, but in reality part of the first named, three and a half miles were repaired and much improved. One mile of new road was also made in the 15th concession to connect with Buckhorn road. A highway is thus opened between the last named road and Kinmount and also to Gooderham railway station. The township of Cavendish, the inspector states, is being rapidly settled.

CHANDOS ROAD.

Several short roads have been repaired, amounting to three miles and a half; and one mile of new road was opened, all leading into a cheese factory recently established and to which there were no adequate roads. The work was all within the township of Chandos and as follows:—From lot 9, concession 2, to lot number 12; from lot 11, concession 7, to lot number 19; from lot 25, concession 14, to lot 25, concession 15, and from lot number 8, concession 10, to the same lot number in the 12th concession—a large amount of work for the expenditure.

CHALK RIVER BRIDGE.

The repair of a bridge over Chalk river, between concessions 6 and 7, Buchanan. It is one hundred and thirty feet long and was recovered, new hand-railing and other necessary work.

COCHRAN'S CREEK BRIDGE.

A bridge on lot number 12, concession 6, North Algona, which, having been very much injured by spring freshets, has been well repaired.

COE HILL AND CHANDOS ROAD.

A bridge was built over Deer river on the line of this road at its southern end, but no other work was done upon the road this season.

CONNELL'S ROAD.

A new road opened from lot number 7 of the 16th concession of Bedford northward a mile and a quarter, making a direct road from Opinicon to Bedford Mills.

COUCH ROAD.

For this comparatively small outlay (\$200) three miles were repaired and one mile opened, the work being from lot number 2, concession 7, southward to lot number 12 in the 6th concession of Chandos.

D'ACRE AND SCOTCH BUSH ROAD.

Repairs from D'Acre on the Opeongo road northward about two miles, and is for the accommodation of a large number of settlers in the south part of Grattan.

D'ACRE AND OPEONGO ROAD.

Beginning at lot number 9 in the 8th concession of Admaston repairs were continued to lot number 19 in the 6th concession of the same township, making a very good waggon road to Renfrew; length repaired, two miles.

DUMMER 9TH CONCESSION ROAD.

A course of general repairs extending from lot number 7, concession 9, to lot number 30 of Dummer. It is the main road to market for settlers in and about Stony lake, and the country through which the road passes is somewhat rough and broken. The county and the municipality of Dummer contributed each \$50 towards the work.

DUNNET ROAD.

The object of this work is to open a road from Warren station on the C. P. Railway in a southwesterly direction about seven or eight miles to what is called St. Albert settlement, which is reported as good agricultural land, and where some seventy-five persons are already located. The work this season was the repairing of two miles from the line between concessions 5 and 6 and between lots 2 and 3 south to the line between concessions 4 and 5, and thence west one mile. A new portion was then opened from the point last reached west to the line between lots 6 and 7 and thence south to about the line between the 4th and 5th concessions, all in the township of Dunnet. The continuation of this road would appear to be desirable.

EGANVILLE AND BRUDENELL ROAD.

Repairs from the intersections of above-named road with Eganville and Foy road northward three miles. The road is used chiefly by South Algona settlers.

ELGIN AND BEDFORD MILLS ROAD.

From lot No. 19 in the 6th concession of South Crosby, westward, about three miles to lot 22, in the 9th concession, what was but a rough trail has now been formed into a fair waggon road, and the only one which a number of settlers have to reach the Brockville and Westport railway.

FERRIS, 10 CON. ROAD.

Commencing between lots 20 and 21, repairs were made over two miles of portions opened during the past two years ; new work beginning at lot number 26, concession 10, and continuing southwesterly to South East Bay, a length of a mile and a half, which latter was graded and ditched.

FRONTENAC AND CLARENDON STATION ROAD.

A road between Ardoch, on the Frontenac road, and Clarendon station, of the Kingston and Pembroke railway. Its length of ten miles, which is through a rough section, was more or less repaired throughout.

GALWAY AND CAVENDISH ROADS.

Through the township of Galway about eighteen miles of repairs and improvements were made upon various roads, chief among which were those between concessions 10 and 11 and between concessions 12 and 13. The inspector reports having driven through almost the entire township, in order to determine and point out where work was most required. In Cavendish several leading roads were improved, the chief work being, however, upon that from lot number 1, concession 18, eastward to Buckhorn road, at lot number 17. Half a mile was opened of Beech road, which leads to the Buckhorn road, making altogether seven and a half miles of repairs and the half mile of new work.

GALWAY, 4 AND 5 CON. ROAD.

One mile of road was opened on the south town line of Galway as part of the work contemplated, and which, while not on the line designated, is used as a continuation of it, as it reaches Nogie's Creek road and Bass Lake settlement. Upon the 4th and 5th concession line proper about two miles of very heavy repairs were made.

GELERT ROAD.

This main highway, between Minden and Gelert stations on the railway, was repaired over six miles.

GREEN BAY ROAD.

Commencing at lot number 26, concession 6, of Bedford, repairs were extended nine miles to Tichborn station, on the Kingston and Pembroke railway, the municipality contributing \$100 towards the work.

GRAHAM'S CREEK ROAD

Nearly a mile of heavy work on the 12th and 13th concession line of Chisholm, and which, with a bridge built by settlers over Graham's creek, now connects with Wisawasa road, leading to South East Bay on Lake Nipissing. Some gratis labor was given by the settlers in order to complete the connection.

GRATTAN, 18 CON. ROAD.

A mile and a half of repairs on the concession line mentioned between lots 24 and 30.

HAGARTY, 3RD CON. ROAD.

A rough and stony portion one mile in length, between lots 25 and 29, was much improved. The road leads to Wilno on the Ottawa, Arnprior and Parry Sound railway.

HAGARTY, FIRST PROOF LINE ROAD.

Two miles opened between lots 5 and 6, from concession 12 southward. When completed this will be a direct road for settlers in the northwestern section of the township to Killaloe station on the railway.

HARDWOOD SETTLEMENT ROAD.

From a point about three miles southwest from Mackey station on the C. P. railway, in the township of Head, four miles were improved southwesterly.

HARVEY, 29 AND 30 ROAD.

Two miles opened from the 18th concession eastward, between lots 29 and 30, to Nogie's creek, thus giving communication between Bobcaygeon road, Nogie's creek, and Silver Lake settlement in Galway, and saving many miles in length of travel to settlers.

HASTINGS ROAD.

Two portions were repaired—namely, from the south boundary of Nipissing district southward four miles, to meet the work of last year; and again between Umfraville and Ormsville north to L'Amable, eleven miles.

HEAD, 8 CON. ROAD.

This road, which is really a portion of the Pembroke and Mattawa road, was repaired from the south boundary of Head, five miles, to Mackey station, on the Canadian Pacific railway.

HINCHINBROOKE ROAD.

Repairs from lot number 5, concession 14, Portland, extending south to Conroy's creek, on lot 6, concession 11, about three miles.

HUGEL AND BADGEROW ROAD.

One mile was opened on the limit between Hugel and Badgerow, through the first concession; and four miles through concessions 3 to 6, inclusive of Badgerow, on or about the line between lots 6 and 7. Two miles were repaired between Caldwell and Badgerow, from the west boundary of the latter township east. A bridge one hundred and fifty-five feet long was built over Gully creek, on lot 7, concession 6, Badgerow.

JACKS LAKE ROAD.

Commencing between lots 22 and 23 of Burleigh, and on the town line between Chandos and Burleigh, the said town line was opened southward a mile and a quarter towards Jacks lake, where good land is understood to exist, and which this road will no doubt enhance in value.

KILLALOE AND MCLACHLIN'S ROAD.

A mile and a half opened on the 7th concession line of Hagarty, from its intersection with the road allowance between lots 5 and 6, and formed into a good waggon road leading to Killaloe station on the O. A. and P. S. railway.

LOUGHBORO' ROAD.

This is the boundary between the townships of Portland and Loughborough. Substantial repairs and grading were done over a mile and a quarter, from the south end of the 2nd concession of Loughborough northward into a cheese factory.

LYNDOCH AND FOYMONT ROAD.

A road opened by settlers from Foymont P. O., on the Opeongo road, southward through portions of Brudenell and Lyndoch. Its length is about nine miles, of which a mile and a half in Brudenell was repaired.

MATTAWA AND TEMISCAMINGUE ROAD.

Two and a half miles of excellent repairs between Mattawa and Antoine creek, in the township of Mattawan.

MCARTHUR'S MILL ROAD.

From lot number 20, concession 2, Carlow, repairs were made southward to the same numbered lot in the 14th concession.

MISSISSIPPI ROAD.

Repairs from McLaren's depot westward to Ompah, eleven miles.

MONCK ROAD.

From Rathburn west to the Rama road four miles were macadamized, using a stone crusher which was furnished by the municipality. A rough and rocky section of the township of Digby, two and a half miles in length, was also repaired. There is good land upon each side of this latter section and the entire traffic between Norland and Sebright is over the Monck road.

MONTEAGLE ROAD.

This was the opening of three and a quarter miles from lot number 25, concession 3, to lot number 21, concession 6, in the township of Montegale.

MOUNT ST. PATRICK ROAD.

Repairs extending from lot number 4, concession 14, three and a half miles to lot number 11, concession 10, all in the township of Brougham. It is the only outlet which settlers have in the west part of the township.

MUD CREEK BRIDGE.

The completion of a low bridge more than nine hundred feet long in the township of Herschell, the renewal of which was begun the previous year and referred to in my report upon *Hastings Roads* of 1895, nearly five hundred feet were added this season.

NOGIE'S CREEK ROAD.

From lot number 22, concession 17 Harvey northwesterly to the boundary of Galway, five and a half miles were generally and carefully repaired, including the renewal of any crossways and bridge approaches which had been severely damaged by fire and flood. The road opens into the Bass Lake settlement and also into Swamp Lake settlement in Galway, where fairly good land exists.

NORTH HARVEY ROAD.

This is a leading road from Bobcaygeon to Burleigh Falls, passing through Deer Lake settlement, and it has opened up some fine farming lands. It was repaired this season over twelve miles from between lots 20 and 21, concession 12 Harvey eastward to the township's eastern boundary; the township of Harvey contributing \$100 to aid the work.

NORTH METHUEN ROAD.

Nineteen miles of repairs from Sandy lake in Methuen to the Wellington road in Chandos; the road being the main line from Havelock and Norwood to Apsley, Coe Hill and elsewhere.

OPINICON ROAD.

General repairs from Perth road eastward about five and a half miles.

OPINICON AND WESTPORT ROAD.

Three and a half miles of repairs from lot number 7, concession 16, to lot number 12, concession 14, of Bedford. Several diversions were necessary to accommodate the travel upon it, which is mostly into a cheese factory at Bedford Mills.

OPEONGO ROAD.

Repairs from about one mile west of Barry's Bay westerly, four miles, and again from Shamrock westward, three miles.

PAPINEAU 10 CON. ROAD.

A mile and a quarter ditched and graded from lot number 30 to the town line of Calvin. Repairs were also made from the latter point two miles eastward, opening thus a very fair road to Mattawa, the general market.

PAPINEAU 10 AND 11 SIDE LINE ROAD.

This was the chopping out, grubbing and grading of three quarters of a mile through an exceedingly rough portion of the 11th and 12th concessions to join the south limit of Mattawa and afford an outlet for those resident in the 7th and 8th concessions, which is a good agricultural district.

PEMBROKE AND BARRY'S BAY ROAD.

About five miles of repairs from a point three miles west of the eastern boundary of Fraser westward.

PETEWAWA 4 AND 5 SIDE LINE ROAD.

The opening of three quarters of a mile on the side line mentioned from the south end of the 5th concession northward. A substantial cedar bridge was also built over a creek.

PETEWAWA 15 AND 16 SIDE LINE ROAD.

A mile and a quarter completed through the first and second concessions, and which had been very partially and roughly opened by the settlers. It accommodates a number of people living in the south part of Petewawa township.

PETERSON ROAD.

Eleven miles of repairs from about five miles west of Combermere towards Maynooth.

PIGEON LAKE ROAD.

A course of general repairs from between lots 5 and 6, concession 18 Harvey, eastward to Hall's Bridge, eleven miles.

RAGLAN AND RADCLIFFE ROAD.

Three miles of repairs upon the town line between Raglan and Radcliffe from lot number 24, concession 1 westward.

ROLPH TOWNSHIP ROAD.

From the end of last year's work which is about three miles and a half west of the Pembroke and Mattawa road, two miles of repairs were made, extending the improvements to Moor lake on the Canadian Pacific railway.

RYAN ROAD.

This road, which is in the township of Sebastopol, was repaired from Eganville and Foy road southward, two and a half miles toward the Opeongo road.

ST. OLA ROAD.

About four and a half miles of repairs from lot number 21, concession 2 Limerick, westward about the north side of Bass lake to Murphy's corners.

SHERWOOD 4 AND 5 CON. ROAD.

On this concession line, from the boundary between Hagarty and Sherwood, two and a half miles were very much improved, and the road made passable for a certain Polish settlement who have no other means of reaching Wilno station on the railway.

SHEILDS PIT ROAD.

Work was commenced at lot number 27, concession 8 Calvin, and continued westerly to lot number 29, at which point the C. P. R. is crossed, and represents one mile of completed road through a heavily timbered country. The work was then continued to the boundary of Bonfield a mile and a half, which was opened twenty-six feet wide as a good winter and fair summer road.

SILVER LAKE CREEK BRIDGE.

Some four hundred feet of approach on the east side of this bridge, which was subject to annual submersion was raised well above high water line, making it passable at all seasons of the year. The bridge is in South Algona at Silver lake.

SNAKE CREEK ROAD.

A deviation one mile in length was made from the 9th concession of Raglan southward; a necessity in order to make the road travelable. It connects two German settlements, one in Raglan and the other in Denbigh.

SOMERVILLE ROADS.

The inspector reports in this instance thirty-four miles of repairs over existing roads in the township of Somerville, and one mile of new work, as follows: From lot 6, concession 11, to lot 16, concession 3, eight miles; on the Monck road from lot 7, concession 13, six miles; on "base line" from lot 60, front range, to lot 7, eight miles; from Monck road to Lutterworth boundary, half a mile; from Coboconk to lot 12, concession 4, five miles; on the third concession line from lot 8 to lot 21, five miles; between lot 6, concession 6 and concession 13, two miles, and half a mile on the ninth concession and lots 2 and 3; the municipality granting \$150 which was spent with the Government appropriation.

SOUTH ALGONA 25 AND 26 SIDE LINE ROAD.

About a mile and a half of road repaired, including a deviation, the work being from Eganville and Killaloe road south on or near the side line indicated. It is required and used by settlers about Silver lake.

SOUTH ALGONA ROAD.

A new road two miles in length graded throughout. It is from lot number 16, concession 10, South Algona, west on the concession line mentioned to the line and road allowance between lots 20 and 21, which latter is opened south to the Eganville road and Killaloe station.

SOUTH MOUNTAIN ROAD.

The repair of one mile upon a portion which passes up the side of a steep mountain, and requiring work of a very permanent character, as the hill cannot be avoided.

SPRINGTOWN AND MOUNT ST. PATRICK'S ROAD.

From lot number 5, concession 12, Admaston, to lot number 11, two miles and a half of repairs were made, accommodating settlers in Bagot and Admaston.

SPRINGER TOWNSHIP ROAD.

The object in this instance is to reach Sturgeon river near the town line between Badgerow and Field, where a very considerable settlement exists who are yet without anything like a proper road.

Work this season was begun between lots 10 and 11, concession 2, of Springer, and continued in a northwesterly direction to the centre of concession 5, and lots 11 and 12, a distance of about three miles, of which two were new road opened and the balance heavy improvements.

SQUAW RIVER ROAD.

The construction of two miles in the township of Harvey, from lot number 29, concession 12, northeasterly, to the south side of lot number 32, and centre of the 10th concession, the object being to serve a new settlement now forming in the southeastern part of Galway whose nearest market is Bobcaygeon.

STURGEON RIVER ROAD.

On this road repairs were made from lot number 4, concession 5, to lot number 2, concession 6, Springer, a length of two miles. One mile was also opened between lots 5 and 6 to the boundary of the township of Field.

SUDBURY AND WAHNAPIITAE ROAD.

Commencing three-quarters of a mile south of the four corners of Garson, McKim, Neelon and Blezard, the road was opened north to the said four corners, and thence east on the boundary between Garson and Neelon a mile and a quarter—new work entirely, and graded generally.

TEMISCAMINGUE ROADS.

In the township of Dymond a road begun last year was continued north on the line between lots 8 and 9 through the township and half a mile into the adjoining township of Harley, two and a half miles, or altogether, six miles from Liskeard, and along which all the land is now taken up. The West Dymond and Kearns road has also been produced north between lots 4 and 5 of Dymond as far as the 6th concession, and a bridge built over the west branch of Wabis creek. There are settlers both north and west of this latter road and its continuation would therefore appear desirable. Four miles were also opened from Liskeard towards Haileybury, commencing between lots 8 and 9 and concessions 1 and 2 of Dymond, thence passing through lot number 8, concession 1, Dymond, lots 8 and 9, concession 6, and lots 8 and 9, concession 5, of Bucke, and being approximately along the lake shore. Two miles between the villages remain uncompleted, but the whole distance may now be travelled.

I would report also that for the convenience of intending settlers a substantial frame building has been erected in the village of Liskeard, and a wharf has also been built.

The house is one and-a-half-storey, 22 feet by 44 feet, double-boarded and tar-papered without and single-boarded and felt-papered within, having hall, dining-room, kitchen, three bed rooms and store-room upon the first flat, with the up-stair flat undivided. Two stoves have been added for cooking and heating purposes and the whole building made fairly comfortable. The building is in charge of the Crown Lands Agent, who will no doubt see that it is protected and cared for.

TROUT LAKE ROAD.

Three miles and a quarter of substantial repairs were made from lot number 9 of B concession, Widdifield, eastward, and from lot number 5, concession 1, westward, a mile of new work was done, the road being practically along the north shore of Trout Lake.

VANSICKLE ROAD.

The repair of two and a half miles, from lot number 4, concession 1, of Methuen, to the 4th concession, to give a much shorter road for settlers into a cheese factory.

VEUVE RIVER BRIDGE.

Necessary repairs in consequence of damage by flooding and a jam of logs, which seriously impeded travel.

WAHNAPITAE ROAD.

A small expenditure in improving the main road and branch.

WARREN AND HUGEL ROAD.

This work is from the vicinity of the Imperial Company's mills, lot number 2, concession 6 Dunnet, northeasterly to intersect the boundary between Hugel and Ratter at lot number 12 in the 2nd concession, from whence it continues north on said town line to the 4th concession, and thence east between concessions 3 and 4 of Hugel to Deer Lake, where a number of Norwegians are settled. Five miles of road were constructed and two and a half miles repaired.

WILBERFORCE 30 AND 31 SIDE LINE ROAD.

This was the construction of two miles on the side line mentioned, from the 3rd concession, northward, and leads to Golden Lake railway station.

WILBERFORCE FIRST SIDE LINE ROAD.

This is an uncompleted work, being delayed in consequence of wet weather. A balance of some \$20 remains unpaid.

WILBERFORCE 20 AND 21 SIDE LINE ROAD.

A road into a German settlement and repaired in the 20th concession over three-quarters of a mile.

WISAWASA ROAD.

This road is between lots numbers 9 and 10 of Chisholm and connects with a road on the 13th concession leading to Powassan. It is one mile of construction through heavily timbered land.

AUBREY WHITE,

Assistant Commissioner.

DEPARTMENT OF CROWN LANDS,

TORONTO, December 31st, 1896.

REPORT
OF THE
DEPARTMENT OF IMMIGRATION
FOR THE
PROVINCE OF ONTARIO
FOR THE YEAR
1896

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO.

TORONTO:
WARWICK BRO'S & RUTTER, PRINTERS, &C., &C., 68 AND 70 FRONT STREET WEST.
1897.

To His Honor the Lieutenant-Governor of Ontario :

The undersigned has the honor to present to Your Honor the Annual Report of the Department of Immigration for the year ending December 31st, 1896.

Respectfully submitted,

JOHN DRYDEN,

Commissioner of Immigration.

R E P O R T

OF THE

IMMIGRATION DEPARTMENT

FOR THE YEAR ENDING 31ST DECEMBER.

1896.

To the Honourable JOHN DRYDEN, M.P.P.

Commissioner of Immigration.

SIR,—I have the honour to submit the following report on the operations of the Immigration Department for the twelve months ending 31st December, 1896.

As compared with 1895, there was a decrease of 945, and with 1894 of 1,527, in the number of immigrants reported as having settled in this Province during 1896, the total number being 4,441.

The foregoing figures take no account of the immigrants reaching this Province from New York or other United States ports otherwise than by way of Montreal. But it was apparent, as in former years, that a considerable number had so reached Ontario, either direct from the port of landing, or after a brief but ineffectual effort to find employment in the States. However, as these arrivals have not been included in the returns since 1892, their omission does not affect the general result which, as shewn by the official figures, indicates that the falling off in the arrivals for 1896 is in keeping with the experience of the previous seven years.

I am indebted to the courtesy of the Department of the Interior at Ottawa, and the Dominion Agents at Halifax, Quebec and Montreal, for the returns appended to this report, and for co-operation generally in promoting the interests of immigration. From these reports the accompanying statement A has been

compiled, giving the particulars as to number, nationality and occupation of those immigrants only who arrived at these ports with the declared intention of settling in Ontario, and omitting the details of monthly arrivals, and of the arrivals destined for other places in the Dominion and for the United States.

There is comparatively little change to be noted in the average proportion of the nationalities of the immigrants of 1896 and of those of the previous year. From seventy per cent. in 1895, the English have dropped to sixty-eight, and the Irish from seven per cent. to five, while the Scotch have risen from ten per cent. to twelve, and all other nationalities from thirteen per cent. to fifteen.

With respect to the occupations so far as classified the preponderance of general labourers is in excess of that of last year, the number being about three times as many as that of farmers and farm labourers combined. Of clerks and traders there are only five less than in 1894, though the total number of immigrants in that year was 1,527 over that of 1896. The total number classified under the several occupations for men, shows only twenty-one and one-half per cent. of farmers and farm labourers, and seventy-eight and one-half per cent. of general labourers, mechanics, clerks and traders. As stated in previous reports commenting on a somewhat similar proportion between the agricultural and non-agricultural classes, it has been difficult to place so large a number of the latter, especially when there has been no great activity in the mechanical trades or in the construction of public works. It may also be noted that when clerks, warehousemen and mechanics—young men—make up their minds to go to farm work, they generally succeed in becoming efficient farm hands; but the “general labourer,” having in many cases grown up without training in any fixed employment, is seldom a desirable acquisition on the farm, and as a consequence he drifts into the cities, where there is already an abundant supply of his class.

The returns from the several homes in this Province, under the management of philanthropic individuals or societies, show a total of 1,293 juvenile immigrants for 1896, being less by ninety-six than the number brought in under the same auspices during the previous year. The bringing of these children into the Province and placing them in situations are managed by those in charge without the intervention of this Department.

During the past year, the demand for farm hands was very little in excess of the supply. The one exception to this was, as in previous years, with respect to first-class experienced workmen. These are always in demand, and may safely count upon good situations, especially during the spring months. But present indications do not warrant the expectation, that there will be any great increase in the demand for agricultural labourers from the older settled portions of the Province. In the northern districts, however, the great activity in mining operations will give an additional value to the unoccupied agricultural lands, and a fresh stimulus to settlement. The prospects of the early construction of railway and other works, encourage the hope of an industrial revival that may provide employment for large numbers, and lead to a greatly increased influx of population to these districts. The advantages they hold out to the intending settler are fully and succinctly set forth in the annexed report from the agent at Sault Ste Marie.

The rate of wages was rather lower in 1896 than in the previous year, and it is not probable that it will be subject to much change during the season of 1897.

STATEMENT A.—Showing the number, nationalities and occupations, so far as ascertained, of the immigrants arriving at the ports of Halifax, Quebec and Montreal for the Province of Ontario, during the year 1896.

	Total arrivals for the year.	Nationalities.							Occupations so far as ascertained.						
		English.	Irish.	Scotch.	German	Scandinavian.	French and Belgians.	Other countries.	Farmers.	Farm laborers.	General laborers.	Mechanics.	Clerks and traders.	Female domestics.	Not classified.

The following is a statement of the number of immigrants settled in the Province of Ontario, with their nationalities, for each year from 1878 to 1896, inclusive :

Year.	English.	Scotch.	Irish.	German.	Other countries.	Total.
1878	6,124	1,785	1,561	620	2,975	13,055
1879	12,169	2,894	2,993	1,450	3,901	24,407
1880	7,980	3,027	4,518	1,197	2,569	19,291
1881	7,704	3,070	4,521	1,274	1,664	18,233
1882	10,873	3,173	6,322	1,033	1,290	22,691
1883	11,954	2,658	8,993	1,384	2,130	27,119
1884	11,020	2,623	3,783	1,716	3,136	22,277
1885	7,261	2,131	2,105	1,098	1,378	13,973
1886	8,344	2,268	2,497	936	1,243	15,288
1887	10,758	3,277	3,330	1,032	1,326	19,723
1888	11,984	3,598	2,801	993	1,156	20,532
1889	9,028	2,347	2,268	779	965	15,387
1890	6,442	1,613	1,630	699	1,042	11,426
1891	6,140	1,368	1,256	649	922	10,335
1892	4,339	1,188	1,048	602	594	7,771
1893	4,743	545	466	380	437	6,571
1894	4,283	584	347	177	577	5,968
1895	3,752	559	358	139	578	5,386
1896	3,019	545	226	58	593	4,441

The following statement shows the number of immigrants who left the British Islands for places out of Europe, and the percentage settled in Ontario during the years 1874, 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, and 1896, respectively :

Year.	Numbers left.	Settled in Ontario.	Percentage.
1874.	241,014	25,254	10.55
1875.	173,809	17,655	10.16
1876.	138,222	11,432	8.27
1877.	119,371	11,654	9.77
1878.	147,663	13,055	8.84
1879.	217,163	24,407	11.23
1880.	322,294	19,291	5.80
1881.	392,514	18,233	4.64
1882.	413,288	22,691	5.49
1883.	397,157	27,119	6.83
1884.	304,074	22,277	7.32
1885.	264,986	13,973	5.27
1886.	330,881	15,288	4.62
1887.	396,494	19,723	4.97
1888.	398,494	20,532	5.16
1889.	342,641	15,387	4.49
1890.	315,980	11,426	3.61
1891.	334,543	10,335	3.09
1892.	321,397	7,771	2.42
1893.	307,633	6,571	2.13
1894.	326,827	5,968	2.63
1895.	271,772	5,386	1.98
1896.	4,441

The following statment shows the aggregate number of children settled in this province since 1868 by the undermentioned parties :

Year.	Miss Rye.	Miss Macpherson.	Mrs. E. Bilbrough Wallace.	Mr. Middlemore.	Rev. Dr. Stephenson.	Dr. Barnardo.	Shaftesbury's Boys' Home, London, Eng.	Cardinal Manning and others.	Mr. Quarrier.	Total.

APPENDICES.

No. 1.

ANNUAL REPORT OF PETER BYRNE, ESQ., IMMIGRATION AGENT,
LIVERPOOL, ENGLAND.

ONTARIO GOVERNMENT AGENCY,

9. JAMES STREET,

LIVERPOOL, January 1st, 1897.

HON. JOHN DRYDEN,

Minister of Agriculture, etc., etc.,

Toronto.

DEAR SIR,—I have the honor to submit the following report of the operations of this agency for the year 1896.

In the prosecution of my duties, I have, as heretofore, constantly striven to draw the attention of the public of these islands to Ontario and its resources and to diffuse as widely as possible information regarding them by every means in my power.

The advertisements of the agency have appeared in the course of the year in between 300 and 400 newspapers and other publications for varying periods; and in some of the largest circulation, almost continuously. In this way the name "Ontario," in prominent type, has passed under the observation of millions of readers, as part of a brief announcement intimating to all concerned where full and trustworthy information could be obtained regarding the principal Province in the Dominion.

The numerous inquiries from all parts of the United Kingdom and occasionally from continental countries, India, Africa, and Australia, resulting from this advertising, have been fully and promptly answered, and pamphlets and leaflets sent to every correspondent. Careful attention has also been given to all personal applications at the office, and a considerable quantity of printed matter has been disposed of in this way as well as by post. The several Canadian Steamship Companies' numerous agencies throughout the country, also those of the Canadian Pacific Railway Company, are channels through which a large number of our pamphlets find their way into the hands of the public. Another useful and important outlet for our publications is the demand which has sprung up during the past few years and is still growing for supplies of pamphlets for use in country schools where they are read in class by the scholars who are afterwards allowed to take them home for the enlightenment of their parents. This, it appears to me, is not the least effective mode of imparting to the future and present farm labourers of the Old Country an accurate knowledge of the agricultural capabilities of the soil of Ontario and

the many advantages it offers to emigrants of this most useful class. And it is important that this knowledge should be acquired while they are young, for the unmarried farm labourer can far more easily save money to emigrate than his married brother. Thousands of married agricultural labourers know how greatly they could improve their condition and prospects by going out to Ontario, but they are unable as a rule to overcome the financial obstacle to emigration without a desperate struggle. I frequently receive the most touching appeals from men of this class with young families to send them out under an arrangement enabling them to pay their passage money by instalments out of their subsequent earnings.

In dealing with intending emigrants generally who have applied to me for advice I have been as careful as ever to encourage those only who, from what I could learn of their character, capacity and circumstances, appeared to me likely to be able to adapt themselves to the conditions of a new country and to prove in all respects good and desirable settlers. On the other hand I have been equally careful to dissuade from going out all classes of persons who are at present not wanted in the Province, or who would not be considered a welcome addition to its population. The first named category consist of (1) tenant farmers and others with capital to invest in land and desirous of settling down to agricultural pursuits; (2) persons of independent means or those wishing to engage in manufacturing and other industrial undertakings; (3) farm labourers; (4) domestic servants; (5) youths and young men desirous of making engagements with farmers to learn practical agriculture. In the second category are comprised artisans, general and common labourers, office clerks, shop assistants, teachers, and all other persons solely depending on obtaining employment as a means of livelihood. Strong young men anxious to learn practical farming are an exception to this rule because the Secretary of the Immigration Department has generally little or no difficulty in providing suitable situations for them. I also recommend some of this class to the clergymen and others who are accustomed to conduct parties of emigrants each season to Canada, and who from the extensive connections they have formed among their co-religionists in the Province, are enabled to find openings for all who are placed under their charge. Many of these young men are well connected and have relatives and friends able and willing to supply them with means to purchase land and commence farming on their own account when they shall have become qualified to do so with reasonable prospects of success. Hence they are a very desirable kind of settlers and deserve whatever help and encouragement we can give them. They require our protection also, for it is young men of this description who in too many instances become the victims of the unscrupulous "farm pupil agents" who still carry on their unprincipled practices in spite of many exposures by the press and oft repeated warnings to the public.

The recent remarkable discoveries of gold in the northwest of Ontario are already exciting attention in this country. They constitute an object lesson of great value in drawing forcible attention to the rich and widely extended mineral resources of the Province. The *Mining Journal* of London, of December 12th, contained a leading article on the subject, giving an interesting summary of Professor Coleman's report. The same issue also contained a letter from the same paper's own correspondent on the spot, giving interesting particulars regarding the principal mines already being worked, and pointing out the magnificent prospects for successful gold mining throughout a large extent of territory. Considering the importance of the subject, I have thought it well to have these articles re-printed in the form of a leaflet for distribution along with our other

publications. I have already forwarded you a copy of the leaflet. I have had several applications for the mining report itself which I have been unable to supply, but this leaflet will in some measure meet the present demand for information. No doubt the new emigration pamphlet now in course of preparation by the department will give as full information as possible down to the date of publication regarding the gold mining developments. I would respectfully suggest that a sketch map should be inserted in the pamphlet showing the locations of the principal mines and the communications of the district. I have had a great many inquiries during the past few years for pamphlets and information regarding Algoma and the Rainy River districts from persons desirous of taking up land, and now that there is the added attraction of gold mining in those regions, there is sure to be a greater interest taken in them than ever by intending emigrants.

Referring to Algoma I may here state that towards the close of the year Rev. W. J. Scott, of Sault Ste. Marie, who is on a visit to the south of England, of which he is a native, delivered three lectures at different places there, on Canada, with special reference to Ontario and the District of Algoma. He also wrote a series of three letters on "Cheap Farms in North Ontario," etc., which have appeared in a group of country newspapers published in the county of Essex. Mr. Scott was recommended to me by Mr. Fred. Rogers, secretary of the Algoma Land and Colonization Company, Limited, as a gentleman who was well qualified to speak of the advantages held out to emigrants of the agricultural classes by Northern Ontario.

Early in the year I also got printed several thousands of copies of a leaflet descriptive of the Temiscaming District, prepared by Mr. C. C. Farr, a prominent and prosperous settler of the district, who was then on a visit to friends in England. Mr. Farr himself personally distributed a large number of the leaflets, which excited a good deal of local interest in his native place. Several young men accompanied Mr. Farr back to Temiscaming and others have informed me that they intend to follow.

The importation of Canadian and American apples into this country during the present season is quite phenomenal in magnitude. There has consequently been a great glut in the market resulting, I regret to say, in very unremunerative prices in many cases. Complaints have been made by brokers and buyers that much of the fruit was badly selected and carelessly packed, and that these faults have been largely the cause of very poor prices being realized. But there is no doubt that very much fruit of fine quality and in good condition was slaughtered in the public sale rooms owing to the enormous quantities pressed on the market. The principal retail shops here make a grand display of the fruit and have done a roaring trade at prices almost unprecedentedly low. The quantity of apples received from the United States and Canada at Liverpool alone up to the end of the year was 1,159,791 barrels, against 279,036 received last year; whilst the total receipts at all British ports have been 2,200,000 barrels! The receipts at Liverpool greatly exceed those at any other port, and represent an average of 9,000 barrels daily from September 1st to December 31st.

Referring to the trial shipment of Ontario fruits in 1895, which unfortunately failed through the breakdown of the cold storage arrangements, it is interesting to note that a similar experiment has lately been made by South American and Jamaica fruit growers. The fruits they are introducing for the first time into this country consist of oranges and bananas. The first experiment from Argentina was a failure, the cargo having become bad from failure of cold storage arrangements when the ship was only a short way on her voyage. Two shipments of

oranges, grapes and shaddocks have recently arrived from Jamaica, one of which has been fairly successful and the other partially so. Both the traders and shippers interested feel confident that with methods of cold storage which they are resolved to carry out, being quite practicable, these fruits can be successfully placed on the markets of this country with advantage to all concerned; and it has been decided by one company to engage fast steamers specially for this purpose.

Another Canadian commodity which has unfortunately met with a bad market this season in some instances, has been poultry, especially turkeys. The shipments have been so enormous that the market has been greatly overstocked. One Canadian steamer alone brought to Liverpool the week before Christmas 100,000 turkeys and 20,000 geese, etc., besides 20,000 barrels of apples. The consequence of such heavy shipments from Canada in addition to the large supplies coming from other countries, has been an immense overstocking of the market. Large quantities have been sold at auction for what they would bring, and considerable stocks which could not be worked off at any price for the Christmas trade, have had to be kept over with grievous disappointment and loss to the shippers. It is to be feared that some shippers of turkeys, as well as other kinds of Canadian produce, engage in the business with very imperfect knowledge of the conditions necessary to insure success. I have heard of cases where serious losses have been incurred in the poultry trade through wrong methods of killing and packing the birds, or by neglecting the proper precaution for keeping them sweet. One large shipper who has been schooled by experience told me that he had this season specially engaged a man with an expert knowledge of the English trade to go out to Ontario to assist him killing his turkeys and preparing them for market, and that he had found it paid him well to do so. There is no doubt, however, that the most essential thing to be attended to in the shipment of poultry and other perishable produce, is effective cold storage in transit, and, if necessary, on shore also till there is a market for them.

The authorities of the Imperial Institute, London, having arranged for a free course of public lectures on Canada to be given in its lecture hall during the present winter, have invited me to deliver one on Ontario on the 29th January, the title of which will be "Ontario, A Sketch of its History and Varied Resources." I have also been invited to give a similar lecture before the South Place Ethical Society, London, on the 9th February, as one of a weekly series, by various persons, entitled "Free Lectures on the British Empire." All the lectures are to be illustrated by lime-light views.

The Board of Trade returns show a decline in the general emigration of the year from the British Isles, but a small increase in the number of persons proceeding to Canada as compared with 1895. The figures are: Total emigration in 1896, 241,912, as against 271,772 in 1895. Of these there went to the United States 154,497, as against 195,632 in the previous year: and to Canada 22,629, as against 22,357 in 1895.

I have the honor to be,

Your obedient servant,

P. BYRNE,

Agent for Ontario.

No. 2

ANNUAL REPORT OF DUNCAN BOLE, ESQ., IMMIGRATION AGENT,
SAULT STE. MARIE, ONTARIO.

SAULT STE. MARIE, January 1st, 1897.

DAVID SPENCE, Esq.,
Secretary Immigration,
Toronto.

DEAR SIR,—The past year has not been quite as good for immigration as the previous one, mainly, I think, owing to the dullness in the lumber camps, as they give employment during the winter to a large number of both men and teams, but notwithstanding the depression of trade in almost every portion of the Dominion, I have succeeded in locating quite a number of thrifty farmers in Algoma.

During the last three months the enquiries for land has been greater than on any previous occasions, and I anticipate a large influx of settlers during the coming season.

The erection and completion of the new pulp mill here—the largest in the world—the commencement of a second even larger, which is intended to be running in June, has added much to the advantages of Algoma as a field for immigration. The Pulp Company not only pays large sums of money to their 1,000 employees every month, but has established a good market for the many thousand cords of pulp wood which grows in the forests of this large district.

To the industrious immigrant Algoma offers advantages surpassed by no other part of the Dominion, a few of which I will enumerate :—

1. That Northern Ontario is the best field for settlement by persons of small capital willing and able to work for themselves.

2. That the general abundance of well paid employment outside of agriculture renders it easy for a settler to establish himself by his own labour on his own land.

Not only are there good wages to be earned in the winter in the lumber camps and elsewhere, but the settler has abundant opportunity to realize ready money all the year round by working on his own farm at such industries as

Cutting and hauling pulp wood and cord wood.

Railway ties, posts and telegraph poles.

Tanbark.

Getting out pine logs under contract for lumbermen.

Working on Government roads, bridges, etc,

3. That independence can be achieved there by a poor man sooner than the same position can be attained elsewhere.

4. That whether for dairying, stock raising or general agriculture the country presents a combination of advantages that are presented in few localities.

5. That there is as great a range and variety of products there as anywhere.
6. That in yield per acre the Northern Ontario lands actually excel the most fertile States of the American Union.
7. That the advantages of having cheap fuel and building material more than counterbalances the disadvantages of having to clear the land.
8. That the country is nearest the greatest markets of the world and has water communications unrivalled, and railway advantages such as no other country ever possessed in its early days.
9. That the climate is temperate when compared with many thickly inhabited and prosperous parts of the new and old world.
10. That there is an entire absence of fever and ague, there is no malaria disease whatever, and in fact there is no healthier country under the sun.
11. That our northern districts are capable of maintaining hundreds of thousands of people in agriculture, mining, manufacturing and general industries
12. That already a surprising development has taken place,
13. And that our northern districts possess all the advantages and qualities necessary to render them attractive to, and suit them for the home of the most progressive race living, namely:—

Cheapness of land, fertility of soil, first-class live stock and dairy advantages, ability to produce all the crops of the temperate zone, incalculable forest wealth, variety of industries, winter employment, good wages for labor, immense mineral resources, cheap building material fuel for cutting, fruit for the picking, fine fisheries, game plentiful, great range of products, water communication, good railway accommodation, religious and educational advantages, a healthy country, pure and plentiful water, regular rainfall, temperateness of climate, local markets, nearness of foreign markets.

Many causes are combining to direct renewed attention to the forest lands of Northern Ontario as a field for settlement. Chief among these are the following:

The merits of the lands themselves as proved by the experience of those who have settled upon them.

The almost complete absorption of the homestead lands of the United States, except on payment of all it is worth or more.

There are now no large tracts of fertile lands anywhere in that country which have not fallen into the possession of railroads, alien land holders, land companies and syndicates or other corporations who hold it for speculative purposes.

The dealings of purchasers with these companies or corporations have been extremely unsatisfactory to the purchaser.

Many thousands of their purchasers have failed in their attempt to pay off mortgages given as part payment for their farms and have lost their substance as well as the most valuable parts of their lives

Experience has shown that there is a limit to the distance from the sea board at which exportable crops, or crops whose price is settled in competition with foreign products, can be profitably raised, and this limit has been passed.

A very large proportion of the plains of the Western States, which heretofore have been supposed to possess inexhaustible fertility, are found by experience to be so cursed with drouth as to render agriculture a precarious and unattractive calling.

Contemporaneously with the discovery of these facts, there has occurred, from causes which are as yet somewhat obscure, a world-wide fall in the price of agricultural products, of itself sufficient to seriously embarrass all producers whose farms lie beyond the limit from which their crops can be cheaply transported to the places of consumption.

And most important of all, it is clear that there has set in a reaction from that rush to the cities which has characterized the last fifteen years. It now looks probable that many of the cities on the continent will have difficulty in maintaining their own populations, and will not for some time be able to absorb the surplus population produced by the country districts to say nothing of the foreign immigration.

From the above, among other causes it has come to pass that thousands of industrious, persevering and intelligent men have had it borne in upon them that there is no longer any hope in their present situation. Many have arrived at the conclusion that to go upon the land is the only resource that promises them at once safe present employment for their little savings and the prospect of an independent subsistence for the future.

The land being the only visible resource of many thousand of employed artisans, struggling traders and starving laborers, and also for the immense yearly output of thrifty farm hands and farmers' sons who cannot possibly find work in the older settled districts, the question arises, where is the land to be found? It must be cheap land, for such persons as have been mentioned have little or no capital. It must be near at hand, easily and cheaply accessible, healthy and temperate. It must be a district in which work is to be had and cash earned in order that the settler and his family may be maintained in comfort during the first few difficult months while the land is being cleared and brought into bearing. In short, what is wanted is land that can be bought for the performance of the settler's duties, or for little more than that; land on which a man possessing good health, a strong arm and a resolute heart can go with only a rudimentary knowledge of agriculture, and from which, as can be seen by examples around him, not only a good living but a competence can be got from land which is not so distant from a market that the crops grown on it are valueless to the grower, and in a district possessing all the necessary comforts of civilization.

In conclusion, I am glad to see that restrictions are about to be placed on undesirable emigrants, as Algoma offers no inducements to indolent people.

To Mr. L. O. Armstrong the indefatigable colonization agent of the C. P. R., we are largely indebted to the prominence given to Algoma the last two years, as he has spent both time and money in accomplishing the same.

All of which is respectfully submitted.

DUNCAN BOLE.

No 3.

ANNUAL REPORT OF E. M. CLAY, ESQ., DOMINION IMMIGRATION
AGENT, HALIFAX, N.S.DOMINION GOVERNMENT IMMIGRATION AGENCY,
INTERCOLONIAL RAILWAY STATION,

HALIFAX, NOVA SCOTIA, Jan. 1st, 1897.

SIR,—I have the honor to submit for your information a report of the arrival and departure of immigrants at the port of Halifax for the year ending December 31st, 1896.

The arrivals for the year have been as follows :

CABIN.

Males	4,044	
Females	3,543	
Children	465	
Total		8,052

STEERAGE.

Males	4,025	
Females	1,573	
Children	1,184	
Total		6,782

Grand total	14,834
-------------------	--------

Of the steerage, 1,049 were for the Province of Ontario, an increase of 4 over the previous year, the nationalities being English 696, Irish 38, Scotch 169, German 4, Scandinavians 44, Russians 8, Russian Poles 2, Russian Finns 50, Austrians 1, Turks 1, Armenians 20, Canadians 16.

It will be seen by reference to report of previous year that there has been a slight decrease in English, Irish, Scotch and Germans going into Ontario, but this has been balanced by an increase in Scandinavians, Russian Finns and Armenians.

During the year five parties of children for homes in Ontario have landed at this port as follows: Dr. Stephenson (2 parties) 61, Miss Macpherson 65, Mr Wallace 173, Mr. Quarrier 132.

The immigrants arriving on the whole have compared well with those in former years, little or no sickness being reported, and only one or two without sufficient means to carry them through.

For your further information I attach statements showing monthly arrivals of cabin and steerage passengers.

I have the honor to be, Sir,
Your obedient servant,

EDWIN M. CLAY.

D. SPENCE, ESQ.,
Secretary Ontario Immigration Department,
Toronto, Ont.

The whole respectfully submitted.

I have the honor to be, Sir,

Your obedient servant,

P. DOYLE,

Dominion Government Immigration Agent.

GOVERNMENT IMMIGRATION OFFICE,
QUEBEC, 31st December, 1896.

No. 5.

ANNUAL REPORT OF JOHN HOOLAHAN, ESQ., DOMINION IMMIGRATION AGENT, MONTREAL.

DOMINION GOVERNMENT IMMIGRATION AGENCY,
MONTREAL, December 31st, 1896.DAVID SPENCE, ESQ.,
Secretary Dept. of Immigration for Ontario,
Toronto, Ont.

SIR,—I have the honor to submit for your information a brief statement of the operations at this Agency for the year ending 31st December instant.

IMMIGRANT STATISTICS.

There is a record kept at this agency of the number of the immigrant arrivals at Montreal via the United States. The statement A hereto annexed will give full particulars of the same. There is, however, no record kept of the European immigrants, steerage passengers, who are obliged to disembark at Quebec, Halifax, or St. John, N.B., as the case may be, all such immigrants being accounted for at these ports. The first and second-class passengers being brought up on the steamships during the season of the St. Lawrence navigation and landed at this port.

A GOOD CLASS OF IMMIGRANTS.

While it is to be regretted that there has been a slight decrease in the total immigration in the period already mentioned as compared with previous years, it is a subject of congratulation to note that the new arrivals who declared their intention of remaining in Canada were of a superior class, being healthy, intelligent and self-reliant people. They brought with them more or less capital to establish themselves in the land of their adoption. There is good reason to believe that in due time they will become useful law-abiding citizens of the Dominion and a valuable acquisition to its population.

HEALTH OF THE IMMIGRANTS.

The general health of the immigrants during the season has been good, there having been no cases of infectious or other diseases reported. This is no doubt owing to the excellent supervision maintained by the medical staff at the Grosse Isle's quarantine station. I have to report the death of an infant and a woman, and a few cases requiring medical attendance and hospital accommodation.

THE LABOR MARKET.

Unskilled Labor.—The labor market was fairly active during the open season. All the able-bodied general laborers willing to work found employment at wages ranging from one dollar to one-fifty per day, according to the capacity of the workman. The immigrants of this class making application at this agency had employment provided for them in the city or in the neighboring municipalities.

Mechanics.—The demand for mechanics was dull and inactive, the new arrivals having to compete with the workmen of similar trades here. It is to be noted that the local supply of this class is always sufficient to supply the demand.

Clerks, Bookkeepers, etc.—The same remarks will apply with equal force to clerks, salesmen, and all others following similar sedentary occupations. I pointed out in my last annual report that mechanics, clerks, bookkeepers, etc., should not come here unless to fill situations prearranged for them, except they possess some capital or have friends and relations here willing to interest themselves in their behalf. The government emigration agents in Britain also discourage the emigration of those classes.

Farm Help.—There was a good demand for farm hands of both sexes, and the immigrants of this class did not experience any difficulty in getting employment on farms in the adjacent country districts.

Gardeners.—There was also a good demand for competent gardeners during the season.

FEMALE DOMESTICS.

There was a large demand for female domestic servants. Those coming have had no difficulty in having situations provided for them. The women and girls of this class should bring with them their certificates of good character from their late employers in the old country, as this would facilitate their obtaining positions and give them the confidence of their employers.

JUVENILE IMMIGRATION.

The juvenile immigrants brought out under the auspices of individuals or the philanthropic societies in Great Britain passing through Montreal to the various homes provided for them in Ontario were of a very desirable class. They appeared to be healthy, intelligent children. Reliable guardians accompany each party of children from the homes in Britain to their destinations in Canada.

TRANSPORTATION.

The transportation of the immigrants by water and rail was eminently satisfactory. Exceptionally fast trips have been made by the ocean passenger steamships from Liverpool to this port. Both the Canadian Pacific and the Grand Trunk railways have done their part after receiving the disembarked immigrant passengers by sending them on to their respective destinations within the least possible delay.

IMMIGRATION LITERATURE.

In the matter of immigration literature, I have seen to it that the immigrants arriving in Montreal, whether remaining in Canada or passing through to the United States, have been supplied with the pamphlets and maps provided by the Dominion Government, descriptions of the lands open for settlement in the Dominion, and calling attention to the advantages of Manitoba, the Northwest Territories and British Columbia for intending settlers. All persons applying for

such pamphlets by post have been similarly supplied. The pamphlet issued by the Ontario Government entitled "Ontario as a Home for the British Tenant Farmer," has been similarly distributed among the immigrants and intending emigrants.

CONCLUSION.

Before closing this report I desire to tender you my best thanks for the able and willing assistance rendered by you in the promotion of the work of immigration during the past year.

I have the honor to be, Sir,

Your obedient servant,

JOHN HOOLAHAN,

Dominion Government Immigration Agent.
